## **The Longer View Essays Toward A Critique Of Political Economy:**

**Longer View** Paul A. Baran,1971 These essays by the author of *The Political Economy of Growth* and co author of *Monopoly Capital* cover the working range of a strong and original mind They are as diverse as his well known discussion of Marxism and psychoanalysis and his expert handling of the politics and economics of development *Growth and Development in the Global Political Economy* Phillip O'Hara,2004-03 This intriguing book uses a social structures of accumulation approach to address the big questions in political economy and will be of interest to historians political economists and macroeconomists **The New Palgrave Dictionary of Economics** ,2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product *Marxian Economics* John Eatwell,Murray Milgate,Peter Newman,1990-02-23 This is an excerpt concentrating on Marxian economics from the 4 volume dictionary of economics a reference book which aims to define the subject of economics today 1300 subject entries in the complete work cover the broad themes of economic theory **Leading Contemporary Economists** Steven Pressman,2008-10-01 This book describes the important contributions of several contemporary economic figures including recent Nobel Laureates Describing their work and putting it into an historical perspective these chapters explain how their work constitutes a major contribution to the discipline of economics and how it has broadened economic science Co Editor of *Routledge Library Editions: Development Mini-Set M: Theories of Development* Various,2021-11-17 Routledge Library Editions Development will re issue works which address economic political and social aspects of development Published over more than four decades these books trace the emergence of development as one of the most important contemporary issues and one of the key areas of study for modern social science The books cover the most important themes within development and include studies of Latin America Africa and Asia Authors include Sir Alexander Cairncross W Arthur Lewis Lord Peter Bauer and Cristobal Kay An extensive collection of previously hard to access or out of print books this set presents an unrivalled opportunity to build up a wealth of material in the field of development studies with a particular focus upon economic and political concerns The volumes in the collection offer both a global overview of the history of development in the twentieth century and a huge variety of case studies on the development of individual nations For institutional purchases for e book sets please contact online sales tandf co uk customers in the UK Europe and Rest of World *Inflation or Depression* Cy Gonick,1975-01-01 First published in the mid 1970s *Inflation or Depression* attributes the contemporary world economic crisis to the post Vietnam War decline of the U S as a preeminent world economic power Rather than offering abstract economic theory Gonick s analysis is based on the actual behaviour of multinational corporations on the links that bind Western economies together and on the limitations determining the economic policies of Canada and other countries

The author traces a consistent pattern by which U S policymakers intentionally exported their economic problems abroad during the early 70s Inflation or Depression offers a bold interpretation of the malaise affecting the world economy at the beginning of the 1970s     *Development Theory* David Lehmann,2010-11-26 The studies in this book first published in 1979 offer an all encompassing contemporary critique of the sociology politics and economics of development as they are conventionally taught and disseminated They also seek to outline the beginnings of a new approach while not sparing from criticism the simplistic of contemporary radical theories The reissue will prove of significant interest to the teaching of development studies at both undergraduate and post graduate levels     *Toward a Critical Political Economics* Dwayne Ward,1977     *Commonweal* ,1970     *Rethinking Marxism* Karl Marx,Harry Magdoff,Paul Marlor Sweezy,Stephen A. Resnick,Richard D. Wolff,1985     *New Directions in Political Economy* M Barbara Leons,Frances Rothstein,1979-03-29

*Foreign Intelligence* Barry Kätz,1989 Much has been written about the Office of Strategic Services OSS the forerunner of the CIA and the exploits of its agents during World War II Virtually unknown however is the work of the extraordinary community of scholars who were handpicked by Wild Bill Donovan and William L Langer and recruited for wartime service in the OSS s Research and Analysis Branch R philosophers historians and economists regionalists and functionalists Marxists and positivists all engaged in the heady task of translating the abstractions of academic discourse into practical politics Drawing on extensive newly declassified archival sources Barry M Katz traces the careers of the key players in R A whose assessments helped to shape U S policy both during and after the war He shows how these scholars who included some of the most influential theorists of our time laid the foundation of modern intelligence work Their reports introduced the theories and methods of academic discourse into the workings of government and when they returned to their universities after the war their wartime experience forever transformed the world of scholarship Authoritative probing and wholly original *Foreign Intelligence* not only sheds new light on this overlooked aspect of the U S intelligence record it also offers a startling perspective on the history of intellectual thought in the twentieth century     **Exploring Social Change** Charles L. Harper,1998 For upper division undergraduate and beginning level graduate courses in social and cultural change Beginning with an introduction to sociology and social change this text discusses social science concepts theories and models about change The later chapters focus on world scale trends and change such as development globalization environmental issues and prospects for the future     **Rivers, Technology, and Society** Dipak Gyawali,2003 This engaging examination of the fate of Nepal s premier natural resource has a significance that transcends both the specific experience of Nepal and the water sector In this book Dipak Gyawali argues for the necessity of moving away from a technocratic approach to take full account of the social and political context of any development intervention focusing on the costs and benefits borne by ordinary people He shows that both analytical comprehension and effective policy action require a holistic conceptualization of the interface between water or any natural resource technology and social context     **General Catalogue of Printed**
