The Lulu Magnet

Brendan G. Carr

The Lulu Magnet:

The Lulu Magnet Matt Condon, 1996 Then he turned on the clock and heard the first thing anyone or anything said to him in his thirties Good morning You have 394 200 hours left to live o From The Death Clock Poppies He closed his eyes and remembered the bottle of bourbon disappear out the driver s window as he gunned the car at over 160kph saw it explode in a million shards and droplets in the rear vision mirror and the black crows skipping towards it towards the site of the explosion before it all disappeared behind him in a silver haze of heat From The Abattoir Party Poppies I can t quite understand this being only five but the less obvious my mother tries to make my lazy eye by disguising it with the pink patch the more it stands out The bold black patch though seems to make the problem disappear Suddenly I am the Pirate Boy Yo ho ho From The Eleven Movements of the Pirate Boy Ticking I went to what I thought was a meeting of the No Aircraft Noise Party but it had nothing to do with the No Aircraft Noise Party It was literally a No Aircraft Noise party A fancy dress party A fancy dress party with an aircraft theme There were three huge walking triangular sandwiches complete with crusts and a frill of lettuce There were five sick bags a half dozen Emu Homestead Anzac cookies sachets two captains a smattering of stewards one elaborately dressed purser a silver coffee pot a colourful group of orange juice containers a few boarding passes two bulky beverage trolleys in the corner next to the jukebox and a gathering of miniature spirit bottles On the dining room table someone had ingeniously rigged up an automatic Lazy Susan that looked like a tiny luggage carousel It carried snacks around on an endless circuit And then there was The Banana Queen From View From the Bar Italia An Entertainment THE LULU MAGNET is really three books in one The first book is called Poppies and is about the downfall of one man Edward who is a Lulu Magnet someone who attracts lulus crazies bums and psychos This collection of stories takes us through Edward s transformation from a square law abiding citizen to a deeply troubled figure with multiple personalities This transformation takes place because his marriage suddenly and shatteringly breaks up when he discovers his wife is having an affair and the bottom drops out of his life Eveything he took for granted just isn t there any more and he becomes a sort of black hole for madness trouble violence weirdness and strife As with a lot of Matt s writing the collection begins lightly and humorously and then plummets down spiralling into darkness and dysfunction Poppies is a brilliant disturbing compelling story of a late 20th century man whose life just goes off the rails The second book Ticking is an collection of stories based around time and memory and focuses on how what happens in our childhoods has a profound affect on the way we live the rest of our lives Matthew evokes the smells sights and sounds of childhood with great skill and feeling in this moving and lyrical collection that examines the friction between a life of respectability and a life without consequence The third book View From Bar Italia An Entertainment is a comic novella about a tabloid journalist who holes up in the Bar Italia in Leichhardt and observes the world This novella was serialised in The Sydney Review and is an absurd and hilarious look at inner city life and its oddness and complexities THE LULU MAGNET is quite simply a literary feast an intoxicating and

diverse combination of three separate and satisfying works which are a testament to the Matthew Condon's skill and versatility

Berg Bryan R. Simms, Charlotte Erwin, 2021-02-01 Alban Berg 1885-1935 a student of Arnold Schoenberg and one of the most prominent composers of the Second Viennese School is counted among the pioneers of twelve tone serialism. His circle included not only the musicians of the Wiener modern but also prominent literary and artistic figures from Vienna's brilliant fin de siècle. In his short lifetime he composed two groundbreaking operas *Wozzeck* and *Lulu* as well as chamber works, songs, and symphonic compositions. His final completed work, the deeply moving and elegiac *Violin Concerto*, is performed by leading soloists across the world. This new life and works study from authors Bryan R. Simms and Charlotte Erwin delivers a fresh perspective formed from comprehensive study of primary sources that reveal the forces that shaped Berg's personality, career, and artistic outlook. One such force was Berg's wife, Helene Nahowski Berg, and the book provides a unique assessment of her role in the composer's life and work as well as her later quest to shape his artistic legacy in the forty-one years of her widowhood. The authors present insightful analysis of all of Berg's major works, bringing into play Berg's own analyses of the music, many of which have not been considered in existing scholarship. Berg is an accessible and all-encompassing resource for all readers who wish to learn about the life and music of this composer, one of the great figures in modern music.

Annual Report of the Director of the Coast and Geodetic Survey U.S. Coast and Geodetic Survey, 1903

Annual Report of the Director, United States Coast and Geodetic Survey, to the Secretary of Commerce U.S. Coast and Geodetic Survey, 1903 Explanation [for 1:250,000 Geological Map Series of South Africa and Namibia]. Geological Survey (South Africa), 1910 The Strongest Men on Earth Graeme Kent, 2012-10-03 They claimed to be the mightiest men in the world. For twenty-five years before the outbreak of the First World War, professional strongmen were the pop idols of their day. Performing apparently incredible feats of strength, they strutted across stages and topped the bills everywhere, earning thousands of pounds a week. Fans included royalty, heads of state, politicians, and leading figures in the literary and artistic worlds, as well as hundreds of thousands of ordinary men and women all revelling in the antics of these larger-than-life characters. Seeking to outdo each other in death-defying deeds, the strongmen's performances were thrilling and dangerous, lifting elephants, horses, pianos, and their players, breaking chains with their biceps, supporting thirty men on a plank suspended on their shoulders. Some strongmen succeeded beyond their wildest dreams. Eugen Sandow, a great self-publicist, was appointed physical culture adviser to King George V. His great rival, the bombastic Charles Sampson, toured the world with his blatant cheating and rigged strongman displays until one day the elephant he claimed to be lifting remained suspended in mid-air. Georg Hackenschmidt, the Russian Lion, was so popular that Theodore Roosevelt himself declared wistfully that he would rather be Hack than President of the USA. In *The Strongest Men on Earth*, Graeme Kent vividly brings to life the world of strongmen and women and shares the stories that defined a sporting and show business era.
