Ags United States Government Answer Key:

Federal Register, 1992-11-25 Federalism on Trial Paul Nolette, 2015-02-23 It is one of the happy incidents of the federal system Justice Louis Brandeis wrote in 1932 that a single courageous state may if its citizens choose serve as a laboratory and try novel social and economic experiments without risk to the rest of the country It is one of the features of federalism in our day Paul Nolette counters that these laboratories of democracy under the guidance of state attorneys general are more apt to be dictating national policy than conducting contained experiments In *Federalism on Trial* Nolette presents the first broadscale examination of the increasingly nationalized political activism of state attorneys general Focusing on coordinated state litigation as a form of national policymaking his book challenges common assumptions about the contemporary nature of American federalism In the tobacco litigation of the 1990s a number of state attorneys general managed to reshape one of America's largest industries all without the involvement of Congress or the executive branch This instance of prosecution as a form of regulation is just one case among many in the larger story of American state development *Federalism on Trial* shows how new social policy regimes of the 1960s and 1970s adopting national objectives such as cleaner air wider access to health care and greater consumer protections promoted both adversarial legalism and new forms of cooperative federalism that enhanced the powers and possibilities open to state attorneys general Nolette traces this trend as AGs took advantage of these new circumstances and opportunities through case studies involving drug pricing environmental policy and health care reform The result is the first full account far reaching and finely detailed of how rather than checking national power or creating productive dialogue between federal and state policymakers the federalism exercised by state attorneys general frequently complicates national regulatory regimes and seeks both greater policy centralization and a more extensive reach of the American regulatory state **The American Glaucoma Society** M.
