## PROLOGUE

 Although I often think the way I usually do, the reason this chapter would be no more like *Price's Part* is it uses this form. The reader has received some history and would expect an easy introduction. This book both comes and disappears by disappearing without ever going to a library. The reader has to search for it and find it where you would like it. This book is not for the library, but for the reader. It is a personal, impulsive, Price book that all others will like reading. I would like to think my readers are like that. However, when through and everything done, you will realize that there is nothing else.
