Omar Rivera Guadalupe,2021-05-16 Stories of horror and the macabre have entertained and intrigued us for thousands of years We wish we could have avoided many of these stories because they traumatized us mentally by occupying that small part of our mind where memories dwell They became part of our subcouncious and they are so unforgettable that they come forth from that part of our brain when we are in places and situations that we feel are dangerous Have you ever been in a wooded area and you imagined a ghostly presence present just because you read or heard a story at some time Horror stories can be compelling and unforgettable and that is what this book aims at accomplishing These horror stories were designed to transport you to places and introduce you to characters that you will dislike and fear but like those stories that consumed our memories these stories will stick with you forever Memories of horror stories have a way of playing tricks with our minds and the stories in this book are no different
