The Sister Arts showing how the visual arts influenced the imagination of seventeenth and eighteenth century English poets

Hagstrum's book suggested the intimate and sometimes troubled relationship between poetry and painting and more than any other on the subject provided a basis for subsequent development and refinement within this field of comparative studies

The nine original essays in Articulate Images address the central issues Hagstrum raised they serve as an introduction to current approaches to the sister arts Fully illustrated Articulate Images will be enjoyed by readers entering the field as well as by seasoned votaries of the sister arts
