## **The Asian Male:**

Chinese Male Homosexualities Travis Kong, 2010-07-13 This book presents a groundbreaking exploration of masculinities and homosexualities amongst Chinese gay men. It provides a sociological account of masculinity, desire, sexuality, identity, and citizenship in contemporary Chinese societies and within the constellation of global culture. Kong reports the results of an extensive ethnographic study of contemporary Chinese gay men in a wide range of different locations including mainland China, Hong Kong, and the Chinese overseas community in London, showing how Chinese gay men live their everyday lives. Relating Chinese male homosexuality to the extensive social and cultural theories on gender, sexuality, and the body, postcolonialism, and globalisation, the book examines the idea of queer space and numerous queer flows of capital, bodies, ideas, images, and commodities around the world. The book concludes that different gay male identities, such as the conspicuously consuming memba in Hong Kong, the urban tongzhi, the money boy in China, and the feminised golden boy in London, emerge in different locations and are all caught up in the transnational flow of queer cultures, which are at once local and global.

**The Emasculation of the Asian Male** Kenji Christian Miyamoto, 2020 This dissertation offers an in-depth analysis of the history of Asian American stereotypes presented throughout U.S. media and popular culture, with particular emphasis on the impact of racialized gender stereotypes on Asian American males. Utilizing a theoretical hermeneutic design, three primary stereotypes emerged as essential historical themes employed to control the image and perception of Asian Americans: 1. The Perpetual Foreigner, 2. The Yellow Peril, and 3. The Model Minority. This dissertation provides background information regarding the socio-political context surrounding the historical formation of each primary stereotype and proposes a unique perspective of how each forms a self-perpetuating cycle that allows for its continued existence.

Psychoanalytic and postcolonial frameworks further explore the psychological implications of these stereotypes on Asian American subjects and reveal the complex intersection of patriarchy, colonialism, and hegemonic masculinity. Potential avenues to address these stereotypes include improvements in media representation, redefining new concepts of Asian American masculinity free from hegemonic standards, and building solidarity with other marginalized populations to no longer be used as a racial wedge. As honorary Whites Only through embracing their identity as unique people of color, can Asian Americans escape their current position as Other in U.S. society.

**Chinese Immigration** California. Legislature. Senate. Special Committee on Chinese Immigration, 1876. *Affirmative Action and the University* Kul B. Rai, John W. Critzer, 2000-01-01 Affirmative Action and the University is the only full-length study to examine the impact of affirmative action on all higher education hiring practices. Drawing on data provided by the Equal Employment Opportunity Commission and the U.S. Department of Education's National Center for Education Statistics, the authors summarize, track, and evaluate changes in the gender and ethnic makeup of academic and nonacademic employees at private and public colleges and universities from the late 1970s through the mid 1990s. Separate chapters assess changes in employment opportunities for

white women blacks Asians Hispanics and Native Americans The authors look at the extent to which a two tier employment system exists In such a system minorities and women are more likely to make their greatest gains in non elite positions rather than in faculty and administrative positions The authors also examine differences in hiring practices between public and private colleges and universities      **Report of the Royal Commission on Chinese Immigration** Canada.
