**The Authentic Armageddon** Crystal Corn,2001      **Book of the Authentic** Darrilyn M Wilson,2014-02-07 The user friendly authentic God for the independent believer Book of the Authentic is a self improvement self validating spiritual book for the independent believer If you are a person who values honesty and is willing to apply that trait to knowing the real deal about God then you will love this read Let s face it today most folks no longer view spiritual matters the same way their parents or grandparents did Spirituality and what God means to people and how they identify with him has changed Millions also no longer actively take part in the religion they were raised in The question is why What happened Are people running from something or to something I found it to be the latter Most people are in their own way running to something It is something that by instinct they perceive to be better That better is a kinder more user friendly God than what they were raised to have The ramification of such an action through the years by millions of people has been powerful enough to begin changing how the world believes and how they envision God personally and that phenomenon keeps evolving As I wrote this book I began to call this new sought after kinder more user friendly God the Authentic God Digging for the full disclosure of this God spanned several years of my life and challenged me to the core In the end my questions were answered I found true peace and I have fully embraced becoming a free and independent believer It is my wish you will find this writing deeply inspiring spiritually liberating and perhaps even life changing Thanks for reading it      *Armageddon's Glorious End* David R. Manzano,2017-12-12 This latest contribution to the understanding of the Bible s final book will be a welcomed addition to anyone s personal library The author is quick to admit that Revelation has many strange images and perplexing elements However he is just as quick to stress that these images and elements are not the focus The Apostle John in writing this apocalyptic volume centers the attention on Jesus Christ the only hope for those who have accepted Him as Lord and Savior as well as those who still need to Many people know Revelation for its striking confusing symbolism Many of these people would experience less confusion if they realized that most of these symbols are borrowed by the beloved disciple from other parts of the Bible Manzano is faithful and responsible in allowing the Bible to interpret itself and establishing the Old Testament especially the book of Daniel as the foundation for decoding Revelation s mysteries As Bible prophecy continues to unfold and this world continues to unravel like a cheap sweater the frustration and turmoil that ensues will dissipate by the encouraging tone of this book Readers are subsequently prompted to dive into Revelation and study afresh to reconnect with the Lamb King around whom its messages revolve      **Armageddon's Arrow** Dayton Ward,2015-05-26 An all new novel of The Next Generation expanded universe from the New York Times bestselling author It is a new age of exploration and the USS Enterprise is dispatched to the Odyssean Pass a region charted only by unmanned probes and believed to contain numerous inhabited worlds Approaching a star system with two such planets Captain Jean Luc Picard and his crew find a massive alien vessel drifting in interstellar space for decades Sensors detect life aboard the derelict aliens held in suspended

animation Thought to be an immense sleeper ship the vessel actually is a weapon capable of destroying entire worlds the final gambit in a war that has raged for generations across the nearby system Captain Picard is now caught in the middle of this conflict and attempts to mediate as both sides want this doomsday weapon which was sent from the future with the sole purpose of ending the interplanetary war before it even began *Imperial History and the Global Politics of Exclusion* Amanda Behm,2017-10-24 Examining the rise of the field of imperial history in Britain and wider webs of advocacy this book demonstrates how intellectuals and politicians promoted settler colonialism excluded the subject empire and laid a precarious framework for decolonization History was politics in late nineteenth century Britain But the means by which influential thinkers sought to steer democracy and state development also consigned vast populations to the margins of imperial debate and policy From the 1880s onward politicians intellectuals and journalists erected a school of thought based on exclusion and deferral that segregated past and future backwardness and civilization validating racial discrimination in empire all while disavowing racism These efforts however engendered powerful anticolonial backlash and cast a long shadow over the closing decades of imperial rule Bringing to life the forgotten struggles which have in effect defined our times Imperial History and the Global Politics of Exclusion is an important reinterpretation of the intellectual history of the British Empire *The True Christian Religion, Containing the Universal Theology of the New Church* Emanuel Swedenborg,1856
