**The Bakers of Paris and the Bread Question, 1700-1775** Steven Laurence Kaplan, 1996-06-19 In preindustrial Europe dependence on grain shaped every phase of life from economic development to spiritual expression and the problem of subsistence dominated the everyday order of things in a merciless and unremitting way Steven Laurence Kaplan's *The Bakers of Paris and the Bread Question 1700-1775* focuses on the production and distribution of France's most important commodity in the sprawling urban center of eighteenth century Paris where provisioning needs were most acutely felt and most difficult to satisfy Kaplan shows how the relentless demand for bread constructed the pattern of daily life in Paris as decisively and subtly as elaborate protocol governed the social life at Versailles Despite the overpowering salience of bread in public and private life Kaplan's is the first inquiry into the ways bread exercised its vast and significant empire Bread framed dreams as well as nightmares It was the staff of life the medium of communion a topic of common discourse and a mark of tradition as well as transcendence In his exploration of bread's materiality and cultural meaning Kaplan looks at bread's fashioning of identity and examines the conditions of supply and demand in the marketplace He also sets forth a complete history of the bakers and their guild and unmasks the methods used by the authorities in their efforts to regulate trade Because the bakers and their bread were central to Parisian daily life Kaplan's study is also a comprehensive meditation on an entire society its government and its capacity to endure Long awaited by French history scholars *The Bakers of Paris and the Bread Question 1700-1775* is a landmark in eighteenth century historiography a book that deeply contextualizes and thus enriches our understanding of one of the most important eras in European history
