## **The Art Of Parmigianino:**

*The Art of Parmigianino* David Franklin, Parmigianino, 2003-01-01 The beauty and range of the work of the sixteenth century artist Parmigianino as painter draughtsman and printmaker make him one of the most remarkable figures of the Italian Renaissance. He was an artist who seemed to discover his style without any effort and his art was universally recognized as being graceful or full of grace. In his day grace was understood to be a spiritual endowment conferring qualities that could not be taught. It was one of the preconditions of natural genius so highly valued among Renaissance artists. But nothing as effortlessly elegant as Parmigianino's drawings and paintings could have been achieved without effort. It is through a close study of the drawings in particular that one is able to discern the sources of Parmigianino's style and the creative struggles he endured. This illustrated study offers a comprehensive reassessment of his work as a draughtsman. More than eighty works on paper selected from collections around the world are discussed in detail. Among Renaissance artists Parmigianino was perhaps more conscious than any of the potential of the graphic arts to convey and indeed broadcast complex ideas. He explored this potential himself not only by means of his numerous drawings but also through the etchings he produced on his own, effectively introducing this print medium into Italian art and through the engravings and chiaroscuro woodcuts that were made after his designs. In these media his influence travelled farther and wider than it could have through his paintings alone. This book, coinciding with the quincentenary of the artist's birth in Parma in 1503, accompanies an exhibition presented at the National Gallery of Canada, Ottawa, from October 3, 2003 to January 4, 2004, and at The Frick Collection, New York, from January 27 to April 18, 2004.

*Parmigianino* Cecil Hilton Monk Gould, 1994 Mannerist painter, draftsman and etcher Francesco Mazzola, known as Parmigianino, 1503-1540, was an influential artist in the generation following Raphael and Michelangelo. Cecil Gould presents the art and life of one of the most masterful, sensitive and elegant of mannerist painters. The volume includes more than sixty paintings and frescoes from religious scenes to subtly powerful portraits as well as drawings and etchings. The informative text presents the works in relation to their sources, techniques and patrons; as a result the author offers new attributions and revisions of the standard chronology.

*Parmigianino* Sylvie Béguin, Parmigianino, Mario Di Giampaolo, Mary Vaccaro, 2000. 30 years on from A. E. Popham's fundamental Catalogue of the Drawings of Parmigianino, 1971, this new book investigates every aspect of Parmigianino's drawings. In it Sylvie Béguin focuses on the artist's drawing style within the context of the Emilian manner and its effects on European art in the sixteenth century. Mary Vaccaro traces Parmigianino's development as a draftsman, investigating the connections between his preparatory designs and his paintings in order to understand the creative and often poetic implications of his graphic approach, while Mario Di Giampaolo reviews the fortunes of his drawings with the critics from Vasari to the present day, describing and commenting upon works which have emerged since 1971. Illustrated with colour and black and white plates, this monograph is an essential up-to-date

Art and Architecture Division,1975 *Correggio and Parmigianino* Elisabetta Fadda,Maddalena Spagnolo,Mary Vaccaro,2016 The exhibition aims to allow visitors to avail themselves of a selection of masterpieces from some of the world s leading museums to compare and contrast the artistic careers of two of the greatest luminaries of the Italian Renaissance Antonio Allegri known as Correggio 1489 1534 and Francesco Mazzola known as Parmigianino 1503 40 The formidable talent of these two artists alone placed the city of Parma in the early 16th century on an equal footing with the peninsula s other great art capitals Rome Florence and Venice 0

Correggio only travelled to Parma when he was already at the height of his career in the late 1510s but he was to remain in the city for the rest of his life. Some twenty of his paintings covering his entire career have been selected to underscore the extraordinary emotive force and expressive range that the artist put not only into his religious works but also into his mythological paintings which were to have such a huge impact on later artists ranging from the Carracci brothers to Watteau and even to Picasso. The exhibition Correggio e Parmigianino Arte a Parma nel Ciquecento Correggio and Parmigianino Art in Parma during the 16th century hosts such unquestioned masterpieces as the Barrymore Madonna from the National Gallery of Art in Washington the Portrait of a Lady from the State Hermitage Museum in St Petersburg the Martyrdom of Four Saints from the Galleria Nazionale in Parma the Noli Me Tangere from the Museo del Prado in Madrid the School of Love from the National Gallery in London and the Dana from Rome's Galleria Borghese. Exhibition Scuderie del Quirinale Rome Italy 12/03/2016. *Parmigianino: Detailed Paintings* Maria Tsaneva, 2015-04-14. Girolamo Francesco Maria Mazzola also known as Parmigianino the little one from Parma was an Italian Mannerist painter and printmaker active in Florence Rome Bologna and his native city of Parma. His work is characterized by elongation of form and includes Vision of Saint Jerome 1527 and the Madonna with the Long Neck 1534. Parmigianino was also an early Italian etcher a technique that was pioneered in Italy by Marcantonio Raimondi but which appealed to draughtsmen though the techniques of printing the copper plates require special skills the ease with which acid when substituted for ink can reproduce the spontaneity of an artist's hand attracted Parmigianino a master of elegant figure drawing. Parmigianino also designed chiaroscuro woodcuts and although his output was small he had a considerable influence on Italian printmaking. Some of his prints were done in collaboration with Giovanni Jacopo Caraglio. **First Proofs of the Universal Catalogue of Books on Art** National Art Library (Great Britain), 1870. *The Art of Hubris* Morten Steen Hansen, 2002. A showcase of the Courtauld Gallery's outstanding Parmigianino collection. Accompanying an exhibition at London's Courtauld Gallery this stunning catalog presents works by the Renaissance artist Girolamo Francesco Maria Mazzola better known as Parmigianino (1503-1540). Fundamentally a draftsman at heart Parmigianino drew relentlessly during his relatively short life and around a thousand of his drawings have survived. The Courtauld's collection comprises twenty four sheets. In preparation for the catalog new photography and technical examinations have been carried out on all the works revealing two new drawings that were previously unknown hidden underneath their historic mounts. They have also helped to better identify connections between some of the drawings and the finished paintings for which they were conceived. This stunning illustrated catalog presents the whole Courtauld collection and sheds light on an artist who approached every technique with unprecedented freedom and produced innovative works.
