The Astral Centers Or Chakras:

The Astral Centers Or Chakras Rudolf Steiner, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **The Chakras and the Human Energy Fields** Shafica Karagulla, Dora van Gelder Kunz, 1989-04-01 A presentation of experimental evidence that illness can be seen in the subtle energy fields of the body Fascinating case studies of actual patients show that clairvoyant observation can diagnose disease and even reveal potential illness before it manifests in physical symptoms The key to health and disease lies in the dynamic interaction between the body s physical emotional and mental fields and universal energy fields Understanding this interaction can help us alter our energy patterns in the direction of better health Includes a full color foldout diagram of the chakra system **Theories of the Chakras** Hiroshi Motoyama, 2014-01-01 It is an outstanding book from both the scientific and spiritual points of view It is the unique record of the pioneering experiments which presents clear electrophysiological evidence of the existence of the network of chakras and nadis which form the infrastructure of the subtle energies existing in the pranic and psychic dimensions which underlie and activate the physical material body of man The experiments in the book successfully integrate the subjective and objective dimensions of knowledge and will serve as guideposts and blueprints for experiments in the years ahead The chakras and other components of the human energy field were largely brought to the attention of the Western world by clairvoyant Charles W Leadbeater His pioneering work is discussed in detail in this fascinating exploration of the subtle body along with that of other respected seers and yogis This book represents a monumental effort to review and correlate much of the accumulated knowledge of the subtle energy systems Such a book could only be written by a person who has had the life long personal experiences which Dr Motoyama so generously shares with the reader These experiences provide a step by step illustration of unfolding and expanding consciousness The book is necessary reading for all serious students of the subject of consciousness George W Meek
