The Bahamas Incident:

A History of the Bahamian People Michael Craton, Gail Saunders, 1992 The present work concludes the important and monumental undertaking of Islanders in the Stream A History of the Bahamian People creating the most thorough and comprehensive history yet written of a Caribbean country and its people In the first volume Michael Craton and Gail Saunders traced the developments of a unique archipelagic nation from aboriginal times to the period just before emancipation This long awaited second volume offers a description and interpretation of the social developments of the Bahamas in the years from 1830 to the present Volume Two divides this period into three chronological sections dealing first with adjustments to emancipation by former masters and former slaves between 1834 and 1900 followed by a study of the slow process of modernization between 1900 and 1973 that combines a systematic study of the stimulus of social change a candid examination of current problems and a penetrating but sympathetic analysis of what makes the Bahamas and Bahamians distinctive in the world This work is an eminent product of the New Social History intended for Bahamians others interested in the Bahamas and scholars alike It skillfully interweaves generalizations and regional comparisons with particular examples drawn from travelers accounts autobiographies private letters and the imaginative reconstruction of official dispatches and newspaper reports Lavishly illustrated with contemporary photographs and original maps it stands as a model for forthcoming histories of similar small ex colonial nations in the region

Race and Class in the Colonial Bahamas, 1880-1960 Gail Saunders, 2017-10-16

Saunders resoundingly affirms the relevance of island history Scholars will appreciate the detail and insights Choice Deftly unravels the complex historical interrelationships of race color class economics and environment in the Colonial Bahamas An invaluable study for scholars who conduct comparative research on the British Caribbean Rosalyn Howard author of *Black Seminoles in the Bahamas* Saunders is to be commended for a scholarly study that prominently features the non white majority in the Bahamas a group which usually has been overlooked Whittington B Johnson author of *Post Emancipation Race Relations in The Bahamas* In this one of a kind study of race and class in the Bahamas Gail Saunders shows how racial tensions were not necessarily parallel to those across other British West Indian colonies but instead mirrored the inflexible color line of the United States Proximity to the U S and geographic isolation from other British colonies created a uniquely Bahamian interaction among racial groups Focusing on the post emancipation period from the 1880s to the 1960s Saunders considers the entrenched though extra legal segregation prevalent in most spheres of life that lasted well into the 1950s Saunders traces early black nationalist and pan Africanism movements as well as the influence of Garveyism and Prohibition during World War I She examines the economic depression of the 1930s and the subsequent boom in the tourism industry which boosted the economy but worsened racial tensions proponents of integration predicted disaster if white tourists ceased

traveling to the islands Despite some upward mobility of mixed race and black Bahamians the economy continued to be dominated by the white elite and trade unions and labor based parties came late to the Bahamas Secondary education although limited to those who could afford it was the route to a better life for nonwhite Bahamians and led to mixed race and black persons studying in professional fields which ultimately brought about a rising political consciousness Training her lens on the nature of relationships among the various racial and social groups in the Bahamas Saunders tells the story of how discrimination persisted until at last squarely challenged by the majority of Bahamians *HIV/AIDS in the Caribbean* ,2001-01-01 It is estimated in this region that more than half a million people are infected with HIV Efforts are needed if inroads are to be made against the AIDS epidemic Although many Caribbean governments have initiated a limited response to HIV AIDS much remains to be done This report provides an overview of the challenges and opportunities in addressing the problem of HIV AIDS in the Caribbean It presents a snapshot of the HIV AIDS epidemic in the region and offers examples of ways in which Caribbean countries and regional bodies such as the Caribbean Community have responded to the epidemic discusses alternative actions for addressing the crisis and highlights a range of strategies for donor coordination and cooperation in the region Finally the report identifies the potential role of the World Bank in addressing the HIV AIDS epidemic in the Caribbean **Homicide in the Bahamas, 1991-2003** Chaswell A.
