Spoons Collecting For Tomorrow:

Popular Collecting and the Everyday Self Paul Martin, 1999 This work is an attempt to explore both the increase in and the breadth of popular collecting in Britain It does this by examining the contexts of social change over the past 20 years This change it is argued has led to a culture of social and material insecurity in which collecting is used for the creating and defence of identity The social theory of Guy Debord is employed as an underlying philosophy in which contemporary popular collecting is interpreted as an expression of a moral value system in a society driven by market forces The social world and values of collectors are explored through their clubs These it is asserted comprise an alternative society one in which a legitimization of the collector s activities and preferences can be made and in which they develop a complementary reality
