Teaching Voice:

Teaching Singing in the 21st Century Scott D. Harrison, Jessica O'Bryan, 2014-05-14 This volume brings together a group of leading international researchers and practitioners in voice pedagogy alongside emerging academics and practitioners Encompassing research across voice science and pedagogy this innovative collection transcends genre boundaries and provides new knowledge about vocal styles and approaches from classical and musical theatre to contemporary commercial music The work is sure to be valuable in tertiary institutions schools and community music associations suitable for use by private studio teachers and will appeal to choral leaders and music educators interested in vocal pedagogy I thoroughly enjoyed reading this book and I am confident it will help bring all aspects of vocal pedagogy firmly into the 21st century Refreshingly many different areas of pedagogy are included in the text so we can all work together to more fully understand the singing voice Up to the moment research is included along with an exploration of the evolving contemporary styles of singing Further areas regarding teaching and curriculum in higher education are also reviewed All in all this text a crucial addition to a professional's vocal library Jeanne Goffi Fynn Teachers College Columbia University USA

Singing and Teaching Singing Janice L. Chapman, Ron Morris, 2021-12-06 Singing and Teaching Singing A Holistic Approach to Classical Voice Fourth Edition continues to be a beloved resource for singers and their teachers speech language pathologists and laryngologists and an adopted text for instructors and students in voice singing and performing arts courses Janice L Chapman is able to draw on her experiences as a singer with some of the world's leading opera companies to present a teaching technique specifically focusing on voice in the areas of classical and opera singing Interspersed with the concepts and components of Chapman's methods are vignettes from her life and career animated by her conversational and vibrant style to guide and entertain the reader through the book in a step by step fashion Now expand to include joint authorships with Dr Ron Morris the fourth edition draws on his experience as a speech and language therapist audiologist and singer and widens the scope of the book to view current studio teaching practices through a scientific lens The philosophy of teaching presented combines three main facets Holistic Physiological and Incremental The Holistic segment emphasizes that the act of singing involves the whole person i.e. body mind spirit emotion and voice the Physiological segment stresses anatomy muscular function and effects of muscular interactions so that students and teachers alike can understand and visualize the functional workings of the torso larynx and the vocal tract and their impact on good singing practices and the Incremental section shows that the act of singing and the teaching of singing can be broken down into manageable components that have a natural hierarchy that eventually interact and interlock This teaching model provides a framework to master one element at a time with the resulting effect of a complete and integrated mastery of technique Chapman recommends this framework for rehabilitative work with the dysfunctional singer for working with the developing singer and for the ongoing development and maintenance of the technically able professional singer This highly readable text includes contributions from renowned

voice professionals case studies evidence based and practical examples exercises and videos New to the Fourth Edition New editor and co author Ron Morris BSpThy Hons MMusStud Voice MSPAA MASA CC PhD The addition of completely new chapters on Laryngeal Registration Vocal Acoustics and Acoustic Registration Clarifications and exercises by Dr Ron Morris on the use of the Accent Method breathing as a highly effective remedial and training technique Expanded and updated information on Breathing and Support Vocal Acoustics Registers Laryngeal and Acoustic Teaching and Learning Hearing and Singing and Manual Therapy Exercises have been significantly expanded and now are contained in a chapter of their own which includes some information on lesson structure and practice Significant updates reflect the current state of research and the latest advances in voice science and pedagogy have been referenced throughout A new glossary has been added for ease of reading and clarification of pedagogical terms used in the text
