and creativity in advocacy A number of teachers examine their own identity story for the intercultural learning which they then offer and extend in student learning Consistently expressed there is the need for teachers to take up individual responsibility while still being strongly supported by their professional community It is us who make the difference one teacher concludes Supported by a strong Foreword by Canadian scholar F Michael Connolly this ground breaking collection of narratives represents a form of social research in providing critical illustrations of the issues needing attention for national language education enhancement It is the only extended inquiry into language teaching in the context of an active policy initiative environment and the first volume to address the language education landscape through the voices of active language teachers
