Teaching Learners with Mild Disabilities Ruth Lyn Meese, 1994 This very applied text introduces preservice teachers to best practices for teaching learners with mild disabilities. The authors illustrate interactions among regular teachers special education teachers and students with mild disabilities through the use of eight hypothetical case studies of students and teachers

Teaching Students with Mild Disabilities at the Secondary Level Edward James Sabornie, Laurie Ungerleider DeBettencourt, 1997 This practical new book focuses attention on a group of learners with unique needs and characteristics adolescents with disabilities. It describes the wealth of research proven instructional methods available to address the learning and behavioral problems typical of adolescent learners with such conditions as learning disabilities behavioral disorders and mild mental retardation. A cross categorical focus is used and a solid grounding in current research ensures the techniques advocated have a proven track record. The authors straightforward writing style and minimal use of jargon make all material accessible and understandable to users. Each content area chapter in addition to presenting techniques for use in special education classes explores ways in which teachers of adolescents with disabilities can use the material in general education classrooms as well. Specific methods for use with specific groups of adolescents with mild disabilities are included wherever applicable for example cognitive strategies for use with students identified as learning disabled. For educators

Teaching Students with Mild Disabilities Smith, 1993-04-01

Learning Disabilities and Related Mild

Disabilities Beverley Johns, Janet W. Lerner, 2009-08-06 The text that has set the standard for students working toward

certification in special education has been substantially revised and updated to meet the needs of a new generation of teachers and students. As reflected in the new title Learning Disabilities and Related Mild Disabilities now includes a cross categorical emphasis making it suitable to a broader number of courses. Specifically the text now accommodates the increased number of courses aimed at teaching students with mild disabilities that are part of many states certification requirements. Researchers are finding that many students with learning disabilities exhibit coexisting related disorders such as ADHD, Asperger's Syndrome and nonverbal learning disabilities. Preservice and in-service classroom teachers who are increasingly responsible for teaching students with special needs within general education or inclusive classrooms will find this new edition especially helpful. The text describes the characteristics of various mild disabilities and offers teaching strategies for general education teachers, special education teachers, school psychologists and other related professionals. All of the text's new coverage and special features were developed to align with the Cengage Learning Education Mission Statement Bridging the gap from preservice to practice to help new teachers be successful in their future classrooms and with their future students.

Strategy Instruction for Middle and Secondary Students with Mild Disabilities Greg Conderman, Laura Hedin, Val Bresnahan, 2013-02-14 This resource features evidence based strategies for teaching vocabulary, reading, written language, math and science as well as study skills, textbook skills and self regulation. It provides informal assessments for every content area or skill addressed, case studies that link assessment results, IEP goals and learning strategies and application activities with questions and suggested responses.

[Teaching Students with Mild and High-incidence Disabilities at the Secondary Level](#) Edward James Sabornie, Laurie Ungerleider DeBettencourt, 2004 Focusing on the needs of secondary level learners with common disabilities, a group often neglected by other books on the market. *Teaching Students with Mild and High Incidence Disabilities at the Secondary Level* presents numerous research proven instructional methods and strategies. It thoroughly examines the methods that are effective across the board as well as methods specific to particular challenges. The authors address special education theory and relevant research in simple, straightforward language that uses minimal jargon, making concepts accessible and understandable to all. Using case studies to show actual instruction as it happens, this book gives readers a realistic portrait of today's diverse student population. Coverage includes special education and adolescence instruction methods and current and future instructional issues. An obvious resource for special education teachers, this book is also an excellent guide for all educators as it provides information about assessment and curriculum planning.

Students with Mild Disabilities in General Education Settings Ada Vallecorsa, Laurie Ungerleider DeBettencourt, Naomi Zigmond, 2000 Especially for special educators that are being asked to teach special education in a general education setting, this book teaches how to apply effective assessment, instructional and evaluation strategies to that setting and shows how to develop and implement programs in collaboration with general education classroom teachers. Emphasis on providing special education services within a general education

setting Focuses on how special educators can go into mainstream environments and offer direct and indirect services to address the range of learning and behavioral problems that are typical to students with mild disabilities Shows how to develop and implement programs in collaboration with regular class teachers Ideal for special educators wanting to learn more about what his her role is likely to entail *Teaching Students with Disabilities* Jeffrey P.
