Grading for Equity Joe Feldman,2018-09-25 Joe Feldman shows us how we can use grading to help students become the leaders of their own learning and lift the veil on how to succeed This must have book will help teachers learn to implement improved equity focused grading for impact Zaretta Hammond Author of Culturally Responsive Teaching The Brain Crack open the grading conversation Here at last and none too soon is a resource that delivers the research base tools and courage to tackle one of the most challenging and emotionally charged conversations in today s schools our inconsistent grading practices and the ways they can inadvertently perpetuate the achievement and opportunity gaps among our students With Grading for Equity Joe Feldman cuts to the core of the conversation revealing how grading practices that are accurate bias resistant and motivational will improve learning minimize grade inflation reduce failure rates and become a lever for creating stronger teacher student relationships and more caring classrooms Essential reading for schoolwide and individual book study or for student advocates Grading for Equity provides A critical historical backdrop describing how our inherited system of grading was originally set up as a sorting mechanism to provide or deny opportunity control students and endorse a fixed mindset about students academic potential practices that are still in place a century later A summary of the research on motivation and equitable teaching and learning establishing a rock solid foundation and a true north orientation toward

equitable grading practices Specific grading practices that are more equitable along with teacher examples strategies to solve common hiccups and concerns and evidence of effectiveness Reflection tools for facilitating individual or group engagement and understanding As Joe writes Grading practices are a mirror not just for students but for us as their teachers Each one of us should start by asking What do my grading practices say about who I am and what I believe Then let's make the choice to do things differently with Grading for Equity as a dog eared reference National Board for Professional Teaching Standards United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities, 1988 School Didactics And Learning Michael Uljens, 2004-08-02 This text presents a reflective theory of school didactics incorporating German and Nordic research traditions in the theory of didactics together with Anglo American research on teaching instructional research and cognitivist theory *Inside the Black Box of Classroom Practice* Larry Cuban, 2013-03-01 2015 Outstanding Book Award Association for Educational Communications Technology AECT A book that explores the problematic connection between education policy and practice while pointing in the direction of a more fruitful relationship Inside the Black Box of Classroom Practice is a provocative culminating statement from one of America's most insightful education scholars and leaders Inside the Black Box of Classroom Practice takes as its starting point a strikingly blunt question With so many major structural changes in U.S. public schools over the past century why have classroom practices been largely stable with a modest blending of new and old teaching practices leaving contemporary classroom lessons familiar to earlier generations of schoolgoers It is a question that ought to be of paramount interest to all who are interested in school reform in the United States It is also a question that comes naturally to Larry Cuban whose much admired books have focused on various aspects of school reform their promises wrong turns partial successes and troubling failures In this book he returns to this territory but trains his focus on the still baffling fact that policy reforms no matter how ambitious or determined have generally had little effect on classroom conduct and practice Cuban explores this problem from a variety of angles Several chapters look at how teachers in responding to major policy initiatives persistently adopt changes and alter particular routine practices while leaving dominant ways of teaching largely undisturbed Other chapters contrast recent changes in clinical medical practice with those in classroom teaching comparing the practical effects of varying medical and education policies The book's concluding chapter distills important insights from these various explorations taking us inside the black box of the book's title those workings that have repeatedly transformed dramatic policy initiatives into familiar and largely unchanged classroom practices **Teaching as Decision Making** Marvin Pasch, 1995 Teaching as Decision Making Successful Practices for the Elementary Teacher Second Edition provides comprehensive coverage of the major themes issues concepts and skill areas involved in planning implementing and evaluating instruction
