Teaching the Magic of Dance Jacques D'Amboise, Hope Cooke, Carolyn George D'Amboise, 1983-01-01 **Magic Moments** Frances Karen Reed, 2001 *Magic Moments* Frances Adlam, Frances Reed, 2008 *Dance for Young Children* Susan W. Stinson, 1988 The purpose of the book is to help teachers develop an understanding of dance in the preschool setting sense when dance can be a natural extension of classroom activity and develop skill in planning and leading meaningful dance experiences The first chapter of this book discusses what dance in preschool education is about and its importance for young children In the second chapter the content of movement is presented these elements are the building blocks from which dance activities are created and provide reference points for developing ideas into class activities The third chapter discusses general preparation for dance activities and chapter 4 offers a step by step description of the process of developing an idea into a class session Chapters 5 and 6 discuss the reality of teaching a dance class and the final two chapters give suggestions for adapting material to particular groups the very young the handicapped and parent child groups The appendixes include resources and strategies for recorded music ideas for use in lessons children s literature sample original stories sample lesson on a specific movement theme curved and angular lines and suggested resources for further reading JD **Dance Education** Susan R. Koff, 2021-01-14 Winner of the 2021 Ruth Lovell Murray Book Award Dance Education redefines the nature of dance pedagogy today setting it within a holistic and encompassing framework and argues for an approach to dance education from a soci cultural and philosophical perspective In the past dance education has focused on the learning of dance limited to Western based societies with little attention to how dance is learned and applied globally This book seeks to re frame the way dance education is defined approached and taught by looking beyond the privileged Western dance forms to compare education from different cultures Structured into three parts this book examines the following essential questions What is dance What defines dance as an art form How and where is dance performed and for what purpose How do social contexts shape the making and interpretation of dance The first part covers the history of dance education and its definition The second part discusses current contexts and applications including global contexts and the ability to apply and comprehend dance education in a variety of contexts This book opens up definitions rather than categorising so that dance is not presented in a hierarchical form The third part continues to define dance education in ways that have not been discussed in the past informal contexts The book then returns to the original definition of dance education as a way of knowing oneself and the world around us ending on the philosophical application of this self knowledge as a way to be in the world and to engage with others regardless of background This textbook is a refreshing and much needed contribution to the field of dance studies by one of the most eminent voices in the field **The Education Outlook** , 1930

Ethical Dilemmas in Dance Education Doug Risner, Karen Schupp, 2020-01-31 The first of its kind this volume presents research based fictionalized case studies from experts in the field of dance education examining theory and practice

developed from real world scenarios that call for ethical decision making Dilemmas faced by dance educators in the studio on stage in recreation centers and correctional facilities and on social media are explored accompanied by activities for humanizing dance pedagogy These challenges converge from educational policies and mandates developed over the past two decades including teacher proof scripted curriculum high stakes testing standardization and methods centered teacher preparation difficulties are often perpetuated by those who want to make change happen but do not know how
