## **Teaching With Heart Making Healthy Connections With Students:**

**Teaching With Heart** Judith A. Deiro, 1996-04-18 Demystifies caring by describing a set of practices that any high school teacher can use. Deiro shows that it is possible to develop healthy bonds with students without becoming intimate. Some of the practices may surprise you, all are compellingly illustrated by case examples. A must read for teacher education professionals as well as for novice and experienced teachers. Thomas J. Sergiovanni, Lillian Professor of Education and Administration, Trinity University, San Antonio, Texas. *Teaching With Heart* is a book of great clarity and wisdom. I plan to recommend it widely. E. Timothy Burns, Author, Educator, and Presenter, Santa Fe, New Mexico. An inspiring book one that reaffirms what I know I'm doing well and encourages me to keep finding ways to show respect for my students. Shellie Mueller, Teacher, Sunnycrest Elementary School, Lake Stevens School District, Washington. Examines the methods that outstanding teachers use to develop healthy caring relationships with their students without turning into counselors or parents. Identifies and discusses the teacher behaviors that sustain and support students while helping them learn. Here you'll find case studies that illustrate how you can begin to foster caring and closeness in your school or classroom. Learn to make real connections with your students to help buffer them against self-defeating behaviors common among young people. Develop these six effective strategies. Learn how to listen to their points of view. Set high standards for yourself and for your students. Encourage students to be individualistic and independent. Learn how to treat students with dignity and respect. Use discipline with humor. Make it safe for your students to learn. Deiro describes the personal and workplace resources that will encourage, sustain, and support you as you work to create caring relationships with your students. She provides a valuable framework you can use right now to begin building closer bonds in your school or classroom. If you are a classroom teacher who wants to learn to be more caring or a teacher educator or administrator who wants to teach novices or experienced staff how they can be more caring teachers, this book is the place to start.

**Teacher-Student Relationships: Toward Personalized Education** Beth Bernstein-Yamashiro, Gil G. Noam, 2013-04-16 Explore the complexity of teacher-student relationships in secondary school settings and learn how these largely unscripted relationships function for students and teachers in their learning and socioemotional development. For teachers, the relationships provide a foundation for pedagogical and curricular endeavors and lead to their increased investment in students' growth, development, and academic success. Students who have such relationships feel more comfortable in their learning environments, interested in the material, and motivated to perform well. We discuss what these relationships look like from the perspectives of teacher and student. Topics include Drawing appropriate boundaries, School provided guidelines and guidance, Formats for supporting teachers, A whole school approach to working on students' emotional challenges, Relationships in after school programs, The voices of teachers and students in this volume show how much young people want to feel known and engage with teachers, and how much teachers feel rewarded and invigorated by taking the step to connect with students on this level. This is the 137th volume of New

Directions for Youth Development the Jossey Bass quarterly report series dedicated to bringing together everyone concerned with helping young people including scholars practitioners and people from different disciplines and professions
