Cases on Error Analysis in Foreign Language

Technical Writing Lebedeva, Nadezhda Anatolievna,2023-07-21 There is a clear tendency to consider the errors committed

by learners in the process of learning a foreign language not as a negative aspect but as a natural process in the development

of their language skills In the past teachers and researchers pondered these errors as something unfavorable something to

prevent from occurring at all costs In order to regulate this appearance of errors many researchers in the field of foreign

language technical teaching have started to study and track the errors made by these students Knowing the most common types of errors is an important and necessary step to inform teachers about where to direct their efforts regarding the most problematic areas students face while producing their technical writing assignments in a foreign language Cases on Error Analysis in Foreign Language Technical Writing provides relevant theoretical foundations and the latest empirical research findings in the area of error analysis in foreign language technical writing This book also summarizes the experience of teaching a foreign language for professional purposes in various fields of higher education Covering topics such as error analysis lexical skills and writing outputs this casebook is an essential resource for preservice teachers educators administrators librarians researchers and academicians
