3. Avoid deletion of "who," "which," or "that" function if it is necessary.

This could mean one of the following:

The supervisor wanted the chemicals that were locked up in low-humidity storage.
OR
The supervisor wanted someone to lock up the chemicals in low-humidity storage.

4. Do not insert lengthy phrases between a subject and verb or verb and object.

Difficult: The task force, on engineering grounds, on conservative grounds, and on economic grounds, approved all design detail.
Revised: The task force approved the design details because they met engineering, conservation, and economic standards.

Improved: Health hazards may result if the following conditions exist: (a) the insulation contains a formaldehyde derivative, (b) the insulation comes in contact with the wall board, (c) no polyethylene barrier separates insulation and wallboard, and (d) no ventilation is provided for the insulation.
