**James** Kurt Richardson,1997 One in an ongoing series of esteemed and popular Bible commentary volumes based on the New International Version text      Recasting West German Elites Michael R. Hayse,2003-11-01 The rapid shift of German elite groups political loyalties away from Nazism and toward support of the fledgling democracy of the Federal Republic in spite of the continuity of personnel and professional structures has surprised many scholars of postwar Germany The key Hayse argues lies in the peculiar and paradoxical legacy of these groups evasive selective memory by which they cast themselves as victims of the Third Reich rather than its erstwhile supporters The avoidance of responsibility for the crimes and excesses of the Third Reich created a need to demonstrate democratic behavior in the post war public sphere Ultimately this self imposed pressure while based on a falsified selective group memory of the recent past was more important in the long term than the Allies stringent social change policies      *The Liberation Society.
