Corrington, 2003-07-14 A stirring reappraisal of the brilliant maligned psychoanalytic thinker Robert S Corrington offers the first thorough reconsideration of Wilhelm Reich s life and work since Reich s death in 1957 Reich was seventeen years old at the outbreak of World War I and had already witnessed the suicides of his mother and father A native of Vienna he became a disciple of Freud but by his late twenties having already written his classic *The Function of the Orgasm* he fled the Third Reich and departed too from Freudian psychoanalysis In *The Mass Psychology of Fascism* Reich first took the now classic position that social behavior has its every root in sexual behavior and repression But the psychoanalytic community was made uncomfortable by this claim and it was said by the time of Reich s death in an American prison on dubious charges brought by the federal government that Reich had squandered his prodigal genius and surrendered to his own paranoia and

psychosis an opinion still responsible for the neglect and misconception of Reich's contribution to psychology In this transfixing psychobiography Corrington illuminates the themes and obsessions that unify Reich's work and reports on Reich's fascinating unrelenting one man quest to probe the ultimate structures of self world and cosmos **Library of Congress Catalog** Library of Congress,1970 **Psychotherapeutic Treatment of Cancer Patients** Jane Goldberg,2018-03-15 When this book first appeared in 1981 it was the first to deal comprehensively with major issues in the psychotherapeutic treatment of cancer patients It remains the standard volume in the field drawing together a broad spectrum of work using psychological approaches to treatment of cancer patients and to understanding the disease's sociological and psychological implications Distinguished contributors from medicine psychiatry psychoanalysis psychology social work family and group therapy and nursing examine key issues including the role of aggression in the onset and treatment of cancer sexual functioning of patients cancer as an emotionally regressive experience cancer in children and the countertransference responses of a therapist working with a cancer patient This volume will be of particular value to helping professionals who deal with cancer patients and their families
