The Life Bridge:

The Eight International Conference "Bridges in Danube Basin" Edward Petzek, Radu Bancila, 2013-11-08 The river Danube is an international waterway flowing 2857 km across Europe from the heights of the Schwarzwald massif down in the Black Sea delta. In its passage, the second longest European river crosses 22 geographical longitudes joining 8 countries: Germany, Austria, Slovakia, Hungary, Serbia, Romania, Bulgaria, and Ukraine. The International Conference on Bridges across the Danube has become a traditional international event in bridge engineering initiated by Prof. Miklos Ivanyi and organized periodically each third year in different Danube countries: 1992 on a ship sailing on the Danube from Vienna via Bratislava to Budapest, 1995 in Bucharest, 1998 in Regensburg, 2001 in Bratislava, 2004 in Novi Sad, 2007 in Budapest, and 2010 in Sofia. The Eight International Conference on Bridges across the Danube took place in Timisoara, Romania, and Belgrade, Serbia, in October 2013, aiming at analysing present trends in bridge construction in every Danube country.

The Tower at the Edge of the World William Heinesen, 2018-06-06 The Tower at the Edge of the World is William Heinesen's last novel, written when he was 76 and is the summation of all of his work. He is one of the greatest, if not the greatest, Nordic author of the twentieth century. William Heinesen describes The Tower at the Edge of the World as a poetic mosaic novel about earliest childhood. There is the perspective of both the child and the old man looking back at his life as a child. Although there is a lot of tangible detail and recognisable characters, the book has a mythic quality. The events in a small community in the windswept Atlantic ocean being recorded by the writer in his room, his tower at the edge of the world, have a larger than life feel. Torshavn and his childhood are used to tell the history of the world and of creation. William Heinesen was, by a long way, the best writer that the Faroe Islands have ever produced. Many have him down as the most important Scandinavian novelist of the 20th century, and he only declined a Nobel prize because he thought it should go to someone who wrote in Faeroese, which he didn't.

Grounded in Japanese philosophy and ideas of non-duality and emptiness, this is a much welcomed contribution to central issues in philosophy of education.
