The Light Fantastic:

The Light Fantastic Terry Pratchett,2009-11-24 Darkness isn't the opposite of light it is simply its absence what was radiating from the book was the light that lies on the far side of darkness the light fantastic The Discworld is in danger heading towards a seemingly inevitable collision with a malevolent red star its magic fading It needs a hero and fast What it doesn't need is Rincewind an inept and cowardly wizard who is still recovering from the trauma of falling off the edge of the world Or Twoflower the well meaning tourist whose luggage has a mind and legs of its own Which is a shame because that's all there is His spectacular inventiveness makes the Discworld series one of the perennial joys of modern fiction Mail on Sunday Incredibly funny compulsively readable The Times The Light Fantastic is the second book in the Wizards series but you can read the Discworld novels in any order

The Light Fantastic Terry Pratchett,2000-02-02 Terry Pratchett's profoundly irreverent novels are consistent number one bestsellers in England where they have garnered him a revered position in the halls of parody next to Mark Twain Kurt Vonnegut Douglas Adams and Carl Hiaasen In The Light Fantastic only one individual can save the world from a disastrous collision Unfortunately the hero happens to be the singularly inept wizard Rincewind who was last seen falling off the edge of the world

The Light Fantastic Jeffrey Lang,2014-06-24

Returning to the story begun in the novel Immortal Coil and continuing in the bestselling Cold Equations trilogy this is the next fascinating chapter in the artificial life of one of Star Trek's most enduring characters He was perhaps the ultimate human achievement a sentient artificial life form self aware self determining possessing a mind and body far surpassing that of his makers and imbued with the potential to evolve beyond the scope of his programming And then Data was destroyed Four years later Data's creator Noonien Soong sacrificed his life and resurrected his android son who in turn revived the positronic brain of his own artificial daughter Lal Having resigned his commission the former Starfleet officer now works to make his way on an alien world while also coming to grips with the very human notion of wanting versus having a child But complicating Data's new life is an unexpected nemesis from years ago on the U S S Enterprise the holographic master criminal Professor James Moriarty Long believed to be imprisoned in a memory solid Moriarty has created a siphon into the real world as a being of light and thought Moriarity wants the solid form that he was once told he could never have and seeks to manipulate Data into finding another android body for him to permanently inhabit even if it means evicting the current owner and even if that is Data himself 2013 CBS Studios Inc STAR TREK and related marks are trademarks of CBS Studios Inc All Rights Reserved

The Light Fantastic Terry Pratchett,1995-11 It's just one of those days when nothing seems to go right a most

inopportune time for the first tourist ever to set foot and carnivorous luggage on the Discworld to be extending his already eventful vacation. Not that he currently has much choice in the matter. But with a monstrous red star on a direct collision course the future for the residents of this flat planet carried by four elephants riding on the shell of a giant turtle swimming through space appears uncertain at best. Fortunately there is one individual who can save Discworld from total destruction. Unfortunately that hero happens to be the singularly inept wizard Rincewind who was last seen falling off the edge of the world. *Light Fantastic* Terry Pratchett, 1997-09-02. Panic said Rincewind hopefully. He always held that panic was the best means of survival. When the very fabric of time and space are about to be put through the wringer in this instance by the imminent arrival of a very large and determinedly oncoming meteorite circumstances require a very particular type of hero. Sadly what the situation does not need is a singularly inept wizard still recovering from the trauma of falling off the edge of the world. Equally it does not need one well meaning tourist and his luggage which has a mind of its own. Which is a shame because that's all there is. *Light Fantastic* Max Keller, Johannes Weiss, 2006.
