**Battle for the Soul of Capitalism** John C. Bogle,2005-10-10 There is no one better qualified to tell us about the failures of the American financial system and the abuses that have taken place in recent years than John C Bogle founder and former CEO of the Vanguard mutual fund group This legendary mutual fund pioneer has witnessed firsthand the innermost workings of the financial industry for more than 50 years and has set the standards for sound investment strategies and stewardship Bogle champions the restoration of integrity in industry practices today This book tells why we lost our way and how we can right our course The reforms that Bogle advances are practical and essential as are his recommendations for assuring that investors receive their fair share of financial market returns [EBOOK: Management Control Systems, 2e](#) Frank Hartmann,Kalle Kraus,Göran Nilsson,Robert Anthony,Vijay Govindarajan,2020-11-05 EBOOK

Management Control Systems 2e **The Soul's Economy** Jeffrey Sklansky,2003-10-16 Tracing a seismic shift in American social thought Jeffrey Sklansky offers a new synthesis of the intellectual transformation entailed in the rise of industrial capitalism For a century after Independence the dominant American understanding of selfhood and society came from the tradition of political economy which defined freedom and equality in terms of ownership of the means of self employment

However the gradual demise of the household economy rendered proprietary independence an increasingly embattled ideal Large landowners and industrialists claimed the right to rule as a privilege of their growing monopoly over productive resources while dispossessed farmers and workers charged that a propertyless populace was incompatible with true liberty and democracy Amid the widening class divide nineteenth century social theorists devised a new science of American society that came to be called social psychology The change Sklansky charts begins among Romantic writers such as Ralph Waldo Emerson and Margaret Fuller continues through the polemics of political economists such as Henry George and William Graham Sumner and culminates with the pioneers of modern American psychology and sociology such as William James and Charles Horton Cooley Together these writers reconceived freedom in terms of psychic self expression instead of economic self interest and they redefined democracy in terms of cultural kinship rather than social compact [The Vocation of Business](#) John C. Médaille,2007 This is an indispensable textbook on the Social Teaching of the Roman Catholic Church for would be business professionals The over riding theme of this book is that the original unity of distributive and corrective justice that prevailed in both economics and moral discourse until the 16th and 17th centuries was shattered by the rise of an

individualistic capitalism that relied on corrective justice justice in exchange only      **The Nation** ,1884      **The Book Review Digest** ,2006      *The New Yorker* ,2005      *Investors Chronicle* ,2006      Critical Perspectives on Nigerian Political Economy and Management Patrick Okedinachi Utomi,2000 These essays are taken from the many symposiums diagnosing Nigeria's prolonged stagnation The book is designed as a companion to the author's previous book *Managing Uncertainty Competition and Strategy in Emerging Economies* which won the Boshorun M K O Abiola prize as the best academic book published in Nigeria in 1998 The five parts of the book are Strategy and the Nigerian Environment The Environment of Banking and Finance Political Economy Issues and the Macro economy Challenge to Business Budget Reviews and Policy Advocacy Values and Management Effectiveness and Case Studies      What is the Future of the U.S. Economy? Susan Hunnicutt,2008 The economy of the United States is one of the largest and strongest in the world Yet several factors may render the economy hamstrung in competition as we move toward the future This anthology takes a hard look at the state of the economy and analyzes what is in store for workers and work in the 21st century Readers will learn to contextualize current events in a broader perspective      Library Journal ,2005      Index to Legal Periodicals & Books ,2006
