

The Berlin Conspiracy

Thom Burnett

The Berlin Conspiracy:

The Berlin Conspiracy Tom Gabbay, 2010-10-05 Jack Teller is through with the CIA until the Berlin station is contacted by a Colonel in the East German Stasi just days before President John F Kennedy's scheduled visit to the Wall. The Stasi officer has an important message and he will speak to no one but Jack. The informant claims a treacherous plot is brewing to assassinate the American president in Germany, a conspiracy originating at the highest levels of the U.S. government. Only Jack Teller believes the threat is real and it has left him alienated and alone in a divided city that holds too many dark secrets. And if he forgets the two essential truths of the espionage game that lies are currency and nothing is what it seems, he won't live to prevent a global catastrophe.

The Grand Conspiracy William Penn, 2001-12-26 When Fidel Castro sends his top assassin into Colorado's high country to kill the vacationing American and Russian Presidents Buck and Dolly Madison and Buck's Vietnam war buddies are caught in a cross fire of presidential politics, water politics and forced to make a choice between Duty Honor Country and allowing Fidel's terrorists to assassinate a President who loathes the military. After their private plane is shot down by the terrorists on a Rocky Mountain glacier, Buck and Dolly must fight their way downhill through a terrorist gauntlet that tests their love, courage and survival skills. If they can outwit the terrorists, they can prevent the destruction of the Lake Granby High Dam and save the lives of thousands of innocent Americans.

The Berlin Conspiracy Angus McLean (Police officer), 2018

The Psychology of Conspiracy Michał Bilewicz, Aleksandra

Cichocka, Wiktor Soral, 2015-05-15 Why did the third World Trade Center building, WTC7, collapse on September 11th, even though it was not struck by any aircraft? Why did Princess Diana's drunk driver look sober as he climbed into the car minutes before their deadly accident? Could a slender birch tree really have caused the plane crash which killed the President of Poland in 2010? Conspiracy thinking, the search for explanations of significant global events in clandestine plots, suppressed knowledge and the secret actions of elite groups, provides simple and logical answers to the social doubts and uncertainties that occur at times of major national and international crises. Contemporary social psychology seeks to explain the human motivation to create, share and receive conspiracy theories and to shed light on the consequences of these theories for people's social and political functioning. This important collection, written by leading researchers in the field, is the first to apply quantitative empirical findings to the subject of conspiracy theorizing. The first section of the book explores conspiracy theories in the context of group perception and intergroup relations, paying particular attention to anti-Semitic conspiracy stereotypes. It then goes on to examine the relationship between an individual's political ideology and the degree to which they engage in conspiracy thinking. The concluding part of the book considers the explanatory power of conspiracy, focusing on the link between social paranoia and digital media and highlighting the social, political and environmental consequences of conspiracy theories. *The Psychology of Conspiracy* will be of great interest to academics and researchers in social and political psychology and a valuable resource to those in the fields of social policy, anthropology, political science and cultural

studies **Conspiracy Theories and the People Who Believe Them** Joseph E. Uscinski, 2018-10-16 Conspiracy theories are inevitable in complex human societies And while they have always been with us their ubiquity in our political discourse is nearly unprecedented Their salience has increased for a variety of reasons including the increasing access to information among ordinary people a pervasive sense of powerlessness among those same people and a widespread distrust of elites Working in combination these factors and many other factors are now propelling conspiracy theories into our public sphere on a vast scale In recent years scholars have begun to study this genuinely important phenomenon in a concerted way In *Conspiracy Theories and the People Who Believe Them* Joseph E Uscinski has gathered forty top researchers on the topic to provide both the foundational tools and the evidence to better understand conspiracy theories in the United States and around the world Each chapter is informed by three core questions Why do so many people believe in conspiracy theories What are the effects of such theories when they take hold in the public What can or should be done about the phenomenon Combining systematic analysis and cutting edge empirical research this volume will help us better understand an extremely important yet relatively neglected phenomenon [Conspiracy Encyclopedia](#) Thom Burnett, 2006 Conspiracies are everywhere they are the lifeblood of politics business and our daily lives this truly international and all embracing encyclopedia explains the details of the world's major popular conspiracies listing them chronologically under subject matter and cross referencing them continually because so many conspiracy theories interact on some level Conspiracies are often international in their sweep and their impact the brutal stabbing of Julius Caesar the conspiracy which has defined political assassinations ever since plunged the Roman Empire into civil war which then engulfed much of the known western world More recently the Cambridge spies Philby Blunt MacLean and Burgess helped Russia throughout WWII and then redefined the Cold War afterwards Philby's defection casting a 30 year shadow over CIA Anglo American relations though conspiracies define our everyday lives there is no body of serious academic research to understand their role nature or defining characteristics Most historians prefer to adhere to the cock up theory of history in which everything happens by accident or incompetence Although this view is favoured by academics and historians it is rejected by a large part of the general public who prefer the evidence of their own lives However they consume their media what they see is a mesh of conspiracies that define the texture of their everyday lives often for the worst Most people believe that there is a grain of truth in most theories about conspiracies this book is for them [Ten Sunset Plaza Drive](#) John Evans, 2008-03 Murder becomes real when a mystery writer decides to kill his collaborator Mystery writer David Palmer accidentally discovers that his egocentric writing partner Jonathan Durrell has betrayed him and decides to sever the collaboration Durrell who dreams of success money and celebrity decides that nothing will stop him from reaching his lofty goal The obstacle to his plan of course is Palmer and Durrell through devious manipulation and unsavory tactics sets up a plan to achieve the perfect murder In a shocking and unexpected turn of events Durrell's murder plan goes terribly awry Suddenly he is caught in the grip of Dimitri Kozlov a

greedy and tenacious Russian blackmailer Durrell's dilemma deepens when he hires hit man Tony Vanucci to take care of the extortionist Durrell's illusion of fame and success begins to disintegrate he finds himself trapped in a vortex of lies deception conspiracy and murder A taut fast moving tale that probes the glittering facade of the City of Angels a city on the dark side of the sun The Cologne Communist Trial Karl Marx,1971 A vigorous defense of the Communists in the trial of 1852 in

Germany Betrayal in Berlin Steve Vogel,2019-09-24 Riveting and vivid At the heart of the book is Blake's own remarkable story which Vogel tells with some sympathy if not approval It reads like a Hollywood screenplay Foreign Affairs A fascinating account of Blake's career as a spy Blake's story has been told before as has the tunnel's but Steve Vogel pulls them together accessibly and comprehensibly along with the wider political context and entertaining detail about personalities of the period Spectator Excellent although there are other books on Blake Mr Vogel's handling of his tale is original and rewarding meticulously researched and full of vivid detail Wall Street Journal A spy thriller that kept me up all night Magnificent story telling Peter Snow A true Cold War espionage thriller set around the ultra secret Berlin Tunnel where British officer George Blake must run a high stakes double cross to maintain his cover The ultra secret Berlin Tunnel was dug in the mid 1950s from the American sector in southwest Berlin and ran nearly a quarter mile into the Soviet sector allowing the CIA and the British Secret Intelligence Service SIS to tap into critical KGB and Soviet military underground telecommunication lines George Blake a trusted officer working in a highly sensitive job with SIS was privy to every aspect of the plan Over the course of eleven months from May 1955 to April 1956 when the Soviets discovered the tunnel Operation Gold provided seemingly invaluable intelligence about Soviet capabilities and intentions The tunnel was celebrated as an astonishing CIA coup upon its disclosure and the agency basked in its new reputation as a bold and capable intelligence agency that had for once outwitted the KGB But in 1961 a Polish defector shocked the CIA and SIS by revealing that Blake was a double agent who had disclosed plans for the tunnel to the KGB before it was even built Blake was arrested and sentenced in 1961 to 42 years in prison the longest term ever imposed under modern English law In the years since the tunnel has been labelled a failure based on the assumption that the Soviets would never have allowed any information of importance to be transmitted through the tapped lines Not so In a work of remarkable investigative reporting Steve Vogel now reveals that the information picked up by the CIA and SIS was more valuable than even they believed But why would the Soviets knowing full well that the tunnel existed have let slip many of their most valuable secrets Or did they actually know

China-GDR Relations from 1949 to 1989 Axel Berkofsky,2021-12-14 This book provides an in depth analysis of the relations between China and the German Democratic Republic GDR from 1949 to 1989 These relations were characterized by some ups but many more downs e g when in the early 1960s the Soviet Union ordered its vassal state in East Berlin to begin treating its former socialist comrade and brother in arms as an adversary and indeed enemy Drawing on a wealth of archival material especially from the archive of the GDR's ruling party this book examines selected issues and elements of East German and Chinese

domestic and foreign policy In order to better grasp the nature and the historical context of the bilateral relationship it offers detailed insights into the following aspects 1 the bilateral honeymoon period from 1949 to the late 1950s which was accompanied by the two parties supporting and applauding each other s oppressive domestic and ill fated economic policies including Mao s Great Leap Forward and the Cultural Revolution 2 relations during the 1960s when the Sino Soviet Split defined the quality and level of bilateral animosities 3 the 1970s when Beijing replaced socialist comradeship with East Berlin with trade and aid from the US and West Germany and 4 the resumption of Sino East German relations in the 1980s and the subsequent period up to the Tiananmen Square protests and the collapse of the GDR in 1989 The book will appeal to historians political scientists and scholars of international relations as well as policymakers diplomats and others with an interest in this previously under researched area
