If one of those interests happens to be horseracing then *The Racing Post Horseracing Miscellany* full of marvellously magnificent moments, many magically memorable from racing's several centuries of excellent equine existence and an amazing, amusing, absorbing collection of little known jockey japes, trainer and turf trivia, owner observations, punter punditry and bookie banter is a book you will love. Every race meeting produces winners and also rans but every off beat intriguing story chronicled in this cornucopia of course and distance action will be an odds on favourite with racegoers young and old. As the title suggests you'll find literally thousands of little known unexpected yarns, tales and stories from the off to the finish line, the starting stalls to the winning post, the first to the last page. And you can bet it's an odds on shot you'll know you have really backed a winner. **The Racing Post Horseracing On This Day** Graham Sharpe, 2022-10-31 Horseracing happens literally every day of the year which is why unique and unusual events are almost commonplace in the Sport of Kings, Queens and commoners even when that day is designed to fool you as many felt was the case when on 1 April 1929 a jockey named Frank Wise didn't live up to his name as he was unwise enough to ride in the Irish Grand National with only one leg and minus the tops of three fingers yet he and his mount Alike won the race. Then there was the race meeting at which two dates combined when Good Friday fell on Boxing Day literally with the horse of that name taking a tumble at Wolverhampton on 26 December 1899. Make a note in your diary to buy yourself or your racing relatives

and friends Graham Sharpe's latest book containing literally hundreds more similarly notable memorable racey stories for every single day of the year All the stories in The Racing Post's Horseracing On This Day have been expertly researched and this book is a must have for any fans of horseracing

UK Horse Racing Betting Systems Mark Horrocks, I graduated from University with a computer science degree many years ago when a degree meant something I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle I started my own computer business in my early 20's where I made good money and travelled across Europe It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at 2K per advert and offices I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair This is where I believed maximum profit could be gained The computer model allowed me to process 100's of handicap races per day and then formulate my system tweaking a horse's weight and BHB or OR Official Rating I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data I eventually found the correct weight and BHB rating for a horse based on its last performances in handicap races This eBook outlines this system and can be manually applied easily using the Racing Post on the internet
