The Legacy A Novel About Loving And Dying:

Reconsidering the Emergence of the Gay Novel in English and German James P. Wilper, 2016-02-15 In *Reconsidering the Emergence of the Gay Novel in English and German* James P. Wilper examines a key moment in the development of the modern gay novel by analyzing four novels by German British and American writers Wilper studies how the texts are influenced by and respond and react to four schools of thought regarding male homosexuality in the late nineteenth and early twentieth centuries The first is legal codes criminalizing sex acts between men and the religious doctrine that informs them The second is the ancient Greek erotic philosophy in which a revival of interest took place in the late nineteenth century The third is sexual science or sexology which offered various medical and psychological explanations for same sex desire and was employed variously to defend as well as to attempt to cure this perversion And fourth in the wake of the scandal caused by his trials and conviction for gross indecency Oscar Wilde became associated with a homosexual stereotype based on unmanly behavior Wilper analyzes the four novels Thomas Mann's *Death in Venice* E. M. Forster's *Maurice* Edward Prime Stevenson's *Imre A* Memorandum and John Henry Mackay's *The Hustler* in relation to these schools of thought and focuses on the exchange and cross cultural influence between linguistic and cultural contexts on the subject of love and desire between men

Love and Death in Goethe Ellis Dye, 2004 Explores the central theme of Romantic poetry in the works of the most important German Romantic poet of all Goethe in association with his younger Romantic compatriots the Schlegels Novalis Fichte and Schelling struggled with the subject object dichotomy and tried to bridge the gap between self and other consciousness and nature His theory and practice prefigured the Romantics determination to display and interrogate the linguistic and cultural structures informing their own thinking and modes of representation what Goethe calls one's *Vorstellungsart* His work exploits subverts and supplants inherited conventions and signs demonstrating with virtuosic irony that literature is a system of texts pre texts and pre established but dynamic conceptual models *Love and Death in Goethe One and Double* explores Goethe's use in a wide range of his poetry and prose of the theme of *Liebestod* love and death and related embodiments of the paradox of unity in duality Ellis Dye also examines Goethe's use of other themes related to love and death the *femme fatale* the *vagina dentata* *Frau Welt* the *Lorelei* venereal disease the *Lustmord* and considers issues of selfhood and individuation as well as the possibility that the love death theme contains an implicit gender bias toward the existential fact of personal separateness Poems plays and novels are dealt with nevertheless as works of art not only as illustrations of an idea or as points of intersection in a system of rhetorical conventions and are examined for intellectual cohesiveness elegance and integrity of design as well as special meanings and effects *Love and Death in Goethe One and Double* explores the meaning of the central theme of Romantic poetry in the works of the most important Romantic poet of all Students of literary culture both the lay reader and the Goethe specialist will be enlightened by its approach and find pleasure and instruction in its revelations Robert Ellis Dye is Professor of German at
