Imagination María Odette Canivell Arzú, 2018-12-17 In *Literary Narratives and the Cultural Imagination* King Arthur and Don
Quixote as National Heroes the author examines traditional Arthurian and Cervantine literary narratives to discuss how the
two literary figures became paladins of their respective nations Whereas the former bestows upon the homeland a positive
image of Britain based on military might a glorious past and a promise of return the latter contributes to a negative image of
Spain based on a narrative of defeat and faded glory In the analysis of the political intentions behind the literature that gave
wings to the rise as paragons of these very famous literary characters a semblance of the national imaginaries of the
countries of their birth appears Indeed the tradition of Waterloo and the tradition of La Mancha are polar opposites in their
Weltanschauung and they only have in common that both heroes Arthur and Quijote are depicted as paladins of justice
benefactors and redeemers of their land of birth It is this idealized view of what is possibly the figment of a writer s or many
different writers pen that astonishes the reader for behind it lies an intention to market for internal and external
consumption both literary creations exceeding the boundaries of the creative fiction that invented them to transform them
into myths and political symbols of their respective nations Meridian , 1992
