 Faith Hope and Carnage is a book about Nick Cave's inner life. Created from over forty hours of intimate conversations with Sean O'Hagan, it is a profoundly thoughtful exploration in Cave's own words of what really drives his life and creativity. The book examines questions of faith, art, music, freedom, grief, and love. It draws candidly on Cave's life from his early childhood to the present day, his loves, his work ethic, and his dramatic transformation in recent years. From a place of considered reflection, Faith Hope and Carnage offers ladders of hope and inspiration from a true creative visionary.

Secular Music and Sacred Theology Tom Beaudoin, 2013. When the basic conceptions of the world held by whole generations in the West are formed by popular culture and in particular by the music that serves as its soundtrack, can theology remain unchanged? The authors of the essays in this important volume insist that the answer is no. These gifted theologians help readers make sense of what happens to religious experience in a world heavily influenced by popular media culture, a world in which songs, musicians, and celebrities influence our individual and collective imaginations about how we might live. Readers will consider the theological relationship between music and the creative process, investigate ways that music helps create communities of heightened moral consciousness, and explore the theological significance of songs. Contributors to this fascinating collection include David Dalton, Maeve Heaney, Daniel White, Hodge Michael, J. Lafrate, Jeffrey F. Keuss, Mary McDonough, Gina Messina-Dysert, Christian Scharen, Myles Werntz. Tom Beaudoin is associate professor of theology at Fordham University, specializing in practical theology. His books include *Witness to Dispossession*, *The Vocation of a Postmodern Theologian*, *Consuming Faith*, *Integrating Who We Are with What We Buy*, and *Virtual Faith: The Irreverent Spiritual Faith of Generation X*. He has given nearly 200 papers, lectures, or presentations on religion and culture over the last thirteen years. He has been playing bass in rock bands since 1986 and directs the Rock and Theology Project for Liturgical Press. www.rockandtheology.com

Designing the Music Business Guy Morrow, 2020-06-10. This book addresses the neglect of visual creativities and content and how these are commercialised in the music industries. While musical and visual creativities drive growth, there is a lack of literature relating to the visual side of the music business, which is significant given that the production of meaning and value within this business occurs across a number of textual sites. Popular music is a multimedia, discursive, fluid, and expansive cultural form that in addition to the music itself includes album covers, gig and tour posters, music videos, set stage and lighting designs, live concert footage, websites, virtual reality, augmented reality technologies, merchandise designs, and other forms of visual content. As a result, it has become impossible to understand the meaning and value of music without considering its relation to these visual components and to the interrelationships between them. Using design culture theory, participant observation, interviews, case studies, and a visual methodology to explore the topic, this research-based book is a valuable study aid for undergraduate and postgraduate students of subjects including the music business, design arts, management, creative and cultural industries studies, business, and management studies, and
