

Spot Gardens

Andrew Seth Pringle-Pattison

Spot Gardens:

Plants in Place Edward S. Casey, Michael Marder, 2023-12-26 Plants are commonly considered immobile in contrast to humans and other animals But vegetal existence involves many place based forms of change stems growing upward roots spreading outward fronds unfurling in response to sunlight seeds traveling across wide distances and other intricate relationships with the surrounding world How do plants as sessile growing decaying and metamorphosing beings shape the places they inhabit and how are they shaped by them How do human places interact with those of plants in lived experience in landscape painting in cultivation and contemplation in forests fields gardens and cities Examining these questions and many more *Plants in Place* is a collaborative study of vegetal phenomenology at the intersection of Edward S Casey's phenomenology of place and Michael Marder's plant thinking It focuses on both the microlevel of the dynamic constitution of plant edges or a child's engagement with moss and the macrolevel of habitats that include the sociality of trees This compelling portrait of plants and their places provides readers with new ways to appreciate the complexity and vitality of vegetal life Eloquent descriptively rich and insightful the book also shows how the worlds of plants can enhance our understanding and experience of place more broadly

The Genius of the Place John Dixon Hunt, Peter Willis, 1988-09-09 A garden classic *The Genius of the Place* reveals that the history of landscape gardening is much more than a history of design and style it opens up a wide perspective of English cultural history showing how landscape gardening was gradually transformed over two centuries into an art that has been widely imitated throughout Europe and North America The English landscape garden is richly documented in this anthology Over 100 illustrations accompany writings that range from Francis Bacon to Jane Austen from the early 1600s when Englishmen began to determine their own concept and form of the garden through the first half of the eighteenth century when its distinctive feature emerged to the heyday of the landscape garden under Capability Brown and the reactions to his pure formalism under Repton and Loudon in the 1800s This edition contains a new introduction and bibliography covering the many developments in garden history during the last dozen years

Small Islands, Large Questions Karen Fog Olwig, 2014-01-14 This book focuses on the post emancipation period in the Caribbean and how local societies dealt with the new socio economic conditions Scholars from Jamaica the Virgin Islands England Denmark and The Netherlands link this era with the contemporary Caribbean

Popular Science, 1990-06 *Popular Science* gives our readers the information and tools to improve their technology and their world The core belief that *Popular Science* and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

Smart Cities for Technological and Social Innovation Hyung Min Kim, Soheil Sabri, Anthony Kent, 2020-09-21 *Smart Cities for Technological and Social Innovation* establishes a key theoretical framework to understand the implementation and development of smart cities as innovation drivers in terms of lasting impacts on productivity livability and sustainability of specific initiatives This framework is based on empirical analysis of 12 case studies including pioneer

projects from Europe Asia the Middle East and more It explores how successful smart cities initiatives nurture both technological and social innovation using a combination of regulatory governance and private agency Typologies of smart city making approaches are explored in depth Integrative analysis identifies key success factors in establishing innovation relating to the effectiveness of social systems institutional thickness governance the role of human capital and streamlining funding of urban development projects Cases from a range of geographies scales social and economic contexts Explores how smart cities can promote technological and social innovation in terms of direct impacts on livability productivity and sustainability Establishes an integrative framework based on empirical evidence to develop more innovative smart city initiatives Investigates the role of governments in coordinating fostering and guiding innovations resulting from smart city developments Interrogates the policies and governance structures which have been effective in supporting the development and deployment of smart cities

Urban Biodiversity and Design Norbert Muller,P. Werner,J. G. Kelcey,2010-05-10 With the continual growth of the world s urban population biodiversity in towns and cities will play a critical role in global biodiversity This is the first book to provide an overview of international developments in urban biodiversity and sustainable design It brings together the views experiences and expertise of leading scientists and designers from the industrialised and pre industrialised countries from around the world The contributors explore the biological cultural and social values of urban biodiversity including methods for assessing and evaluating urban biodiversity social and educational issues and practical measures for restoring and maintaining biodiversity in urban areas Contributions come from presenters at an international scientific conference held in Erfurt Germany 2008 during the 9th Conference of the Parties of the Convention on Biodiversity This is also Part of our Conservation Science and Practice book series with Zoological Society of London
