## **Spotlight On War:**

**Playing for a Winner** Brandon Isleib, 2017-01-10 He never felt like a Hall of Famer You can't argue with championships If he was so good why were his teams so bad On talk shows and in sports bars statements like these are often made about both underrated and overrated players It's generally accepted that being in a bigger market or on a winning team can cause a player to be overrated while the opposite can leave them underrated Examining pennant races to show how much attention a team receives and which teams are getting the most attention provides a context to this familiar commentary This book studies the effects of the sports media spotlight and its absence on the fortunes of teams in pennant races and Hall of Fame inductees Along the way the author brings to light accomplished players most non fans have probably never heard of

**International Relations Dynamics in the 21st Century: Security, Conflicts, and Wars** Özel Özcan, Merve Suna, 2024-12-02 The study of international relations aims to provide insight into power dynamics competition and establishing peace and partnerships in the global system following the First World War The international system is influenced by its various actors behavior which constantly evolves due to structural shifts Although the bipolar hegemonic system of the Cold War ended in the 1990s following the two world wars the system changes again with new threats and the search for security In this respect the 1990s were a period of the Cold War shaped by new threat perceptions and conflict areas The security issue encompasses a vast range from individual safety to the international system While a country's expansion in foreign policy may trigger a defensive response from other actors International Relations Dynamics in the 21st Century Security Conflicts and Wars it is essential to acknowledge that the international system will face security war and peace to some extent International Relations Dynamics in the 21st Century Security Conflicts and Wars delves beyond fundamental crises and wars examining their origins ramifications and management strategies Furthermore it focuses on today's modern and emerging threats analyzing the international community's efforts to combat these dangers and forecasting potential scenarios Covering topics such as foreign policy international conflict and terrorism this book is an excellent resource for academicians researchers graduate and postgraduate students policymakers professionals in government and diplomacy and more

diamonds Diamonds are a symbol of love purchased to celebrate marriage and it is therefore deeply ironic that the diamond trade has become linked with warfare and human rights violations committed in African producer countries such as Sierra Leone the Democratic Republic of Congo and more recently Zimbabwe and Angola In their quest for diamonds or by using diamonds to purchase weapons armed groups in these countries have engaged in recruiting child soldiers amputating limbs and committing rape and murder In response to the problem the international community non governmental organisations and key industry players such as De Beers combined forces to create the Kimberley Process in 2002 The KP uses an export certificate system to distinguish the legitimate rough diamond trade from so called blood diamonds which are also known as conflict diamonds This book considers the extent to which the KP supported by other agencies at the international and national levels has been effective in achieving its mandate In so doing it presents an original model derived from the domain of regulatory theory the Dual Networked Pyramid as a means of describing the operation of the system and suggesting possible improvements that might be made to it
