Springboard To Discovery:

Springboard to Discovery Mary L. Lacy, 1976-01-01 *Trauma Informed Placemaking* Cara Courage, Anita McKeown, 2024-04-16 Trauma Informed Placemaking offers an introduction to understanding trauma and healing in place. It offers insights that researchers and practitioners can apply to their place based practice learning from a global cohort of place leaders and communities. The book introduces the ethos and application of the trauma informed approach to working in place with references to historical and contemporary trauma including trauma caused by placemakers. It introduces the potential of place and of place practitioners to heal. Offering 20 original frameworks, toolkits and learning exercises across 33 first and third person chapters, multi disciplinary insights are presented throughout. These are organised into four sections that lead the reader to an awareness of how trauma and healing operate in place. The book offers a first gathering of the current praxis in the field, how we can move from trauma in place to healing in place and concludes with calls to action for the trauma informed placemaking approach to be adopted. This book will be essential reading for students, researchers and practitioners interested in people and places from artists and architects, policy makers and planners, community development workers and organisations, placemakers to local and national governments. It will appeal to the disciplines of human geography, sociology, politics, cultural studies, psychology and to placemakers, planners and policymakers and those working in community development.
