Charisma is much more than just a gymnastics club; our philosophy is "happiness breeds success". Gymnastics is an activity that offers a myriad of benefits, both physically and mentally.

It is one of the most challenging sports in the world. It requires dedication, hard work, and perseverance. Gymnastics requires strength, flexibility, balance, and coordination, making it a full-body workout that demands both physical and mental agility. Gymnastics is a sport that challenges your mind as much as your body. It requires focus, concentration, and the ability to push through adversity, all of which are essential qualities for success in life.

At Charisma we don't see gymnastics as just a sport; it is a way of life. The discipline and work ethic required to excel in gymnastics are the same qualities that breed success in any endeavour. The perseverance, dedication, and commitment needed to master complex gymnastics routines are the same qualities that will help individuals succeed in their careers, relationships, and personal goals. By participating in gymnastics at Charisma, children will be able to build self-esteem as they master new skills and improve their technique. **Teaching with Charisma** Lloyd Duck,1981    *What Teachers Need to Know* Matthew Bruce Etherington,2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable but pesky questions always remain such as how can teaching and learning be conducted in ways that satisfies and respects everyone What are the parameters of an inclusive pedagogy Who defines its principles How should these principles be taught and by whom And by what authority shall they be grounded These types of thorny questions occupy the essence of educators and the authors of this book This book is about teachers educators and topics related to inclusion Teachers and educators have a lot to know therefore the topics are broad and relevant to the times What should teachers know about special needs religion and spirituality Aboriginality the environment tolerance and school choice Although teachers have knowledge of their subject matter knowledge alone is not sufficient They must know and understand how people learn A teacher must also care deeply about who they teach And this teacher knowledge grows and changes over time as teachers become more experienced informed skilled and wiser At the same time no teacher preparation will be sufficient because there will always be

discussions that were never had and knowledge that was never shared Time has its costs and there is only so much a formal education can prepare someone This book helps to satisfy a cavity in learning for teachers and educators in general
