

TECHNICAL READOUT:

3057

IN 3049, the first Clan forces appeared in the Inner Sphere. Armed with advanced technologies of a long-dead age, the warlike invaders unleashed a devastating blitzkrieg, capturing world after world until a total Clan victory seemed certain. Unable to match the enemy's superior 'Mechs, the Inner Sphere militaries increasingly turned to their combat fleets for relief, only to find the skies filled with deadly Clan DropShips, JumpShips, and WarShips — massive vessels not seen in the Inner Sphere for hundreds of years. Now the Great Houses have begun to rebuild their own armadas and stand ready to challenge the Clan invaders in the infinite battlefield of space.

This revised edition of the original *Technical Readout: 3057* contains descriptions, illustrations, and full *AeroTech 2* statistics for the Inner Sphere and Clan DropShips, JumpShips, WarShips, small craft and space stations most common in 3057. Additionally, this volume contains twenty-four WarShips mentioned in the fictional context of the *BattleTech* universe but never before presented in a technical readout.
