Guitar Fretboard Mastery Step by Step Mark Phillips, 2020-03-02

This book takes a step by step approach to teach you to read and play every note on the guitar fretboard. You start by reading and playing studies in 2nd position and gradually work your way up position by position to 12th position employing all major and minor keys as you go. Whereas many exercise books studies are rather dull or repetitious this book exclusively employs as studies charming tunes originally composed as songs by blind Celtic harper and master melodist Turlough O'Carolan 1670-1738. An Appendix includes a discussion of such topics as notes outside the key notes outside the position and position shifts.
