Soviet Historians and Perestroika: The First Phase Donald J. Raleigh,2016-07-22 The Soviet historical profession is in ferment For decades it was relegated to the task of obfuscating the past gilding the status quo and papering over the blank spots in Soviet history events that defied even the most brazen attempts at falsification Today it is engaged in an often painful process of self examination Initially rather timid the internal discussion was soon propelled by external events the scuttling of history textbooks official disclosures of formerly classified facts and the explosion of candour in the depictions of the past in memoirs journalistic writing and fiction This volume gives voice to the lead actors in the first phase of this process the senior historians their journalistic challengers and those charged with responsibility for the institutions of research

training and publication in the field of history *The Second Birth* Tilo Schabert,2015-11-20 Most scholars link the origin of politics to the formation of human societies but in this innovative work Tilo Schabert takes it even further back to our very births Drawing on mythical philosophical religious and political thought from around the globe including America Europe the Middle East and China The Second Birth proposes a transhistorical and transcultural theory of politics rooted in political cosmology With impressive erudition Schabert explores the physical fundamentals of political life unveiling a profound new insight our bodies actually teach us politics Schabert traces different figurations of power inherent to our singular existence things such as numbers time thought and desire showing how they render our lives political ones and thus how politics exists in us individually long before it plays a role in the establishment of societies and institutions Through these figurations of power Schabert argues we learn how to institute our own government within the political forces that already surround us to create our own world within the one into which we have been born In a stunning vision of human agency this book ultimately sketches a political cosmos in which we are all builders in which we can be at once political and free

Holborn Review Frederick H Borsch is the retired Bishop of the Episcopal Diocese of Los Angeles and Professor of New Testament and Chair of Anglican Studies at The Lutheran Theological Seminary at Philadelphia He is also the former Dean of the Chapel at Princeton University His other books include The Spirit Searches Everything Keeping Life s Questions The Bible s Authority in Today s Church Introducing the Lessons of the Church Year A Guide for Lay Readers and Congregartions and The Christian and Gnostic Son of Man     *The First Zionist Congress* ,2019-02-27 An indispensable primary source in the history of Zionism The First Zionist Congress held in Basel Switzerland in August 1897 was arguably the most significant Jewish assembly since antiquity Its delegates surveyed the situation of Jews at the end of the nineteenth century analyzed cultural and economic issues facing them defined the program of Zionism created an organization for planning and decision making and coalesced in camaraderie and shared aspiration Though Zionism experienced multiple conflicts and reversals the Congress s goal was ultimately realized in the establishment of Jewish sovereignty in Palestine the State of Israel in 1948 As Theodor Herzl the Congress s principal organizer declared At Basel I founded the Jewish state This volume presents for the first time a complete translation of the German proceedings into English Michael J Reimer s accessible translation includes explanatory annotations and a glossary of key terms events and personalities A detailed introduction situates the First Zionist Congress in historical context and provides a summary of each day s events The Congress s debates supply a case study in the history of nationalism they feature imagery and tropes used by nationalists all over Europe while appealing to the distinctive heritage of Judaism The proceedings are also important for what they say and omit about the Ottoman state that ruled Palestine as well as the Palestinian Arab people living there This is a foundational primary source in modern Jewish history This translation of the protocols of the First Zionist Congress will be of immense benefit to students and scholars of Jewish and Middle Eastern history nationalism studies and colonial and postcolonial studies Reimer s long introduction is thoughtful and provocative the translation is faithful and the notes and biographical dictionary are enormously helpful Derek J Penslar Harvard University This is an important and even fantastic piece of work Reimer makes an excellent and perhaps understated case for the need for such a complete and annotated translation Michael Berkowitz author of Zionist Culture and West European Jewry before the First World War     *Buddha'S Tooth* U.
