Realism challenges this view by examining Bergelson's entire oeuvre. The book argues that Bergelson continually reinvented himself as a writer experimenting with style and narrative technique even under the most severe restrictions of Party dogma. With contributions from an international team of Bergelson experts, the volume offers a full-length biography, the first complete bibliography of Bergelson's work, translations of two of his most influential programmatic articles, and a range of essays dealing with all periods of the writer's life.

Berlin Tales (Helen Constantine, 2009-06-25)

Berlin Tales is a collection of seventeen translated stories associated with Berlin. The book provides a unique insight into the mind of this fascinating city through the eyes of its story tellers. Nearly twenty years after the fall of the Berlin Wall, the stories collected here reflect on the city's fascinating recent history, setting out with the early twentieth-century Berlin of Siegfried Kracauer and Alfred Döblin and culminating in an excellent selection of stories from the best of the new voices in the current boom in German fiction. They are chosen for their conscious exploration of the city's image, meaning, and attraction to immigrants and tourists as well as Berliners from both sides of the Wall. These stories also depict Berlin's distinct districts, not just the differences between East and West but also iconic sites such as Alexanderplatz, individual neighbourhoods, Jewish Mitte, Turkish Kreuzberg, and individual streets. There is an introduction and notes to accompany the stories and a selection of Further Reading. Each story is illustrated with a striking photograph, and there is a map of Berlin and its transport system.
