Out Like a Light Randall Garrett,2016-01-21 The sidewalk was as soft as a good bed Malone lay curled on it thinking about nothing at all He was drifting off into a wonderful dream and he didn t want to interrupt it There was this girl a beautiful girl more wonderful than anything he had ever imagined with big blue eyes and long blond hair and a figure that made the average pin up girl look like a man And she had her soft white hand on his arm and she was looking up at him with trust and devotion and even adoration in her eyes and her voice was the softest possible whisper of innocence and promise I I d love to go up to your apartment with you Mr Malone she said Malone smiled back at her gently but with complete confidence Call me Ken he said noticing that he was seven feet tall and superbly muscled He put his free hand on the girl s warm soft shoulder and she wriggled with delight All right Ken she said You know I ve never met anyone like you before I mean you re so wonderful and everything Malone chuckled modestly realizing in passing how full and rich his voice had become He felt a weight pressing over his heart and knew that it was his wallet stuffed to bursting with thousand dollar bills But was this a time to think of money No Malone told himself This was the time for adventure for romance for love He looked down at the girl and put his arm around her waist She snuggled closer **The Highest Treason** Randall Garrett,2009-02 TRAITOR TO THE HUMAN RACE It was a space war on a massive scale against an alien enemy sworn to enslave mankind on Earth and all its colonies But mankind s society had grown weak forgetting the key component that had made it reach for the stars in the first place Now it was mired in a bland homogenized politically correct mess bankrupt of values Sebastian MacMaine a master strategist abandoned the Earth Empire to work for the Kerothi and their alien space fleets His was the

most startling mission in human history His tactics Ruthless Here is a shocking story of thrilling space battles It is political and philosophical science fiction that you will never forget by a master of the form **By Proxy** Randall Garrett,2016-01-21 Mr Terrence Elshawe did not conform to the mental picture that pops into the average person s mind when he hears the words news reporter Automatically one thinks of the general run of earnest handsome firm jawed level eyed smooth voiced gentlemen one sees on one s TV screen No matter which news service one subscribes to the reporters are all pretty much of a type And Terrence Elshawe simply wasn t the type The confusion arises because thirty odd years of television has resulted in specialization If you run up much Magnum Telenews time on your meter you re familiar with the cultured voice and rugged good looks of Brett Maxon your Magnum reporter but Maxon is a reporter only in the very literal sense of the word He s an actor whose sole job is to make Magnum news sound more interesting than some other telenews service even though he s giving you exactly the same facts But he doesn t go out and dig up those stories The actual leg work of getting the news into Maxon s hands so that he can report it to you is done by research reporters men like Terrence Elshawe Elshawe was a small lean man with a large round head on which grew close cropped light brown hair His mouth was wide and full lipped and had a distinct tendency to grin impishly even when he was trying to look serious His eyes were large blue and innocent only when the light hit them at just the right angle was it possible to detect the contact lenses which corrected an acute myopia **Out Like a Light** Randall Garrett,2011-05 One of the many interesting things Randall Garrett did in his long long career was write a series of novels and stories set in a world where magic is a science as sophisticated as physics or chemistry are in our world Sorcery is a licensed field And in this tale Kenneth Malone sometimes known as Sir Kenneth of The Queen s Own FBI has had problems with telepathic spies and more than somewhat nutty telepathic counterspies But the case of the Vanishing Delinquents was at least as bad **Hail to the Chief** Randall Garrett,2011-06 Convention rhetoric had taken a violent turn But what s to expect when the candidate is a man with a name like Cannon The buttons now pinned on every lapel said things like Blast em with Cannon or Cannon Can Do The placards and the box shaped signs with a trifle more dignity said WIN WITH CANNON and CANNON FOR PRESIDENT and simply JAMES H CANNON

Fifty Percent Prophet Randall Garrett,2011-06 That he was a phony Swami was beyond doubt That he was a genuine prophet though seemed but then what s the difference between a dictator and a true prophet So was he Dr Joachim sat in the small room behind his reception hall and held his fingers poised above the keys of the rather creaky electrotyper on his desk The hands seemed to hang there long slender and pale like two gulls frozen suddenly in their long swoop towards some precious tidbit floating on the writhing sea beneath ready to begin their drop instantly as soon as time began again All of Dr Joachim s body seemed to be held in that same stasis Only his lips moved as he silently framed the next sentence in his mind

Despoilers of the Golden Empire Randall Garrett,2016-01-21 I In the seven centuries that had elapsed since the Second Empire had been founded on the shattered remnants of the First the nobles of the Imperium had come slowly to realize that the empire was not to be judged by the examples of its predecessor The First Empire had conquered most of the known universe by political intrigue and sheer military strength it had fallen because that same propensity for political intrigue had gained over every other strength of the Empire and the various branches and sectors of the First Empire had begun to use it against one another The Second Empire was politically unlike the First it tried to balance a centralized government against the autonomic governments of the

various sectors and had almost succeeded in doing so But no matter how governed there are certain essentials which are needed by any governmental organization Without power neither Civilization nor the Empire could hold itself together and His Universal Majesty the Emperor Carl well knew it And power was linked solidly to one element one metal without which Civilization would collapse as surely as if it had been blasted out of existence Without the power metal no ship could move or even be built without it industry would come to a standstill

Randall Garrett,2016-01-21 I d been in Ravenhurst s office on the mountain sized planetoid called Raven s Rest only twice before The third time was no better Shalimar Ravenhurst was one of the smartest operators in the Belt but when it came to personal relationships he was utterly incompetent He could make anyone dislike him without trying When I entered the office he was sitting behind his mahogany desk his eyes focused on the operation he was going through with a wineglass and a decanter He didn t look up at me as he said Sit down Mr Oak Will you have some Madeira I decided I might as well observe the pleasantries There was no point in my getting nasty until he did Thank you Mr Ravenhurst I will He kept his eyes focused on his work It isn t easy to pour wine on a planetoid where the gee pull is measured in fractions of a centimeter per second squared It moves slowly like ropy molasses but you have to be careful not to be fooled by that The viscosity is just as low as ever and if you pour it from any great height it will go scooting right out of the glass again The momentum it builds up is enough to make it splash right out again in a slow motion gush which gets it all over the place Besides which even if it didn t splash it would take it so long to fall a few inches that you d die of thirst waiting for it
