The Lee Girls:

The Lee Girls Mary P. Coulling, 1987 Chronicles the lives of Robert E Lee's four daughters from 1834 to the death of the last surviving daughter in 1918 *Girl on the Leaside* Kathleen Anne Kenney, 2017-06-20 A young aspiring poet in a quiet Irish village thinks her life of books suits her perfectly until a charismatic newcomer from America broadens her horizons Siobhan Doyle grew up with her Uncle Kee at their family pub the Leaside in rural Ireland Kee has been staunchly overprotective of Siobhan ever since her mother's death in an IRA bombing but now that she's an adult it's clear that in protecting her Kee has unwittingly kept her in a state of arrested development The pair are content to remain forever in their quiet haven reading and discussing Irish poetry but for both Siobhan and Kee fate intervenes A visiting American literary scholar awakens Siobhan to the possibility of a fulfilling life away from The Leaside And her relationship with Kee falters after the revelation that her father is still alive In the face of these changes Siobhan reaches a surprising decision about her future Lyrical and heartfelt Kathleen Anne Kenney's *Girl on the Leaside* deserves a place alongside contemporary literature's best loved coming of age novels *The Middle Kingdom Under the Big Sky* Mark T. Johnson, 2022-05 *The Middle Kingdom under the Big Sky* seeks to deepen understanding of the history of Chinese immigrants in Montana by recovering their stories in their own words **Searching for Their Places** Thomas H. Appleton, 2003 Annotation *Searching for Their Places* is a collection inspired by the Fifth Southern Conference on Women's History The essays in this volume are particularly astute in assessing the ways in which southern women have claimed power or searched for their places and suggests how southern women individually and collectively have sought to empower themselves The essays written by outstanding historians in this field represent some of the freshest and most exciting scholarship about women in the South They convincingly illustrate how the national experience looks different when southern women become the focus The essayists use extensive analyses of primary source materials to examine a variety of issues that have confronted women in the South from the days of English colonialization through the civil rights struggles of the post World War II era The collection is well balanced in its periodization with four essays on the antebellum years one on the Civil War three on the immediate postbellum era and four based in the twentieth century Studying women of every color background and station across the region and across four centuries *Searching for Their Places* will appeal to the general reader and anyone interested in women's studies

This is a magical fable that penetrates to deep emotional truths. Geraldine Brooks. This debut novel brings 1920s Sydney to life through a fairytale lens, highlighting the city's romance, its magic, and its mystery. It is the Australian setting that sets this quirky historical romance apart from others of its genre.
