The Legion Companion:

The Witches' Key to the Legion: A Guide to Solomonic Sorcery Laurelei Black, 2013-10-05 The Lesser Key of Solomon the King the Goetia is one of the most widely read and feared books known to today's magical practitioners. It has been translated, edited, and commented upon by some of the most illustrious Mages of the last two centuries. THIS book is the first to address Witches in regard to the Legion and it is unique in its admonition of the spirit torture that has been the hallmark of previous editions. Here you will find a reasonable direct approach to working with the 72 spirits of the Legion. The Witches Key to the Legion includes several essays on working with these spirits, discussions of the creation of the Legion and their seals, a complete Demonic DO NOT CALL list, two quick reference tables to help you easily find a spirit with whom you have affinity, alternate sigils for most, and illustrations of several of the spirits and updated descriptions of all 72 spirits as provided by the spirits themselves.

The French Foreign Legion Douglas Porch, 2010-11-01 The French Foreign Legion is a complete captivating study of the famed fighting force from its inception in 1831 to modern times. Historian Douglas Porch chronicles the Legion's involvement in Spain, Mexico, Indochina, Madagascar, WWI, Vietnam, and Algiers, to name a few, and delves into the inner workings of legionnaires and their captains. Known for draconian discipline and shrouded in mystery, the secrets of the Legion are guarded by those who have gained admittance into its elite society. In this thoroughly researched and impressive account, Porch reveals the mysteries surrounding a Legion of unparalleled exoticism, pathos, and drama.

Theology and the DC Universe Roshan Abraham, Gabriel McKee, 2023-05-30 Superman's first appearance in Action Comics 1, 1938, proclaimed that the character would reshape the destiny of the world. The advent of the first superhero initiated a shared narrative, the DC superhero universe, that has been evolving in depth and complexity for more than 80 years. Superman, Batman, and Wonder Woman have become key threads in the tapestry of the American mythos, shaping the way we think about life, right and wrong, and our relationship with our own universe. Their narrative world is enriched by compelling stories featuring lesser-known characters like Dr. Fate, the Doom Patrol, John Constantine, and the Legion of Super-Heroes. Stories set within this shared universe have explored questions of death, rebirth, the apocalypse, the nature of evil, the origins of the universe, and the destiny of humankind. This volume brings together the work of scholars from a range of backgrounds who explore the role of theology and religion in the comics, films, and television series set in the DC Universe. The thoughtful and incisive contributions to this collection will appeal to scholars and fans alike.
