

A black and white photograph of Lionel Trilling, a middle-aged man with light hair, wearing a dark suit, white shirt, and patterned tie. He is standing next to a piano, with his right hand resting on the keys. The background is slightly blurred, showing what appears to be a bookshelf or a wall with some papers.

The Liberal Imagination:

The Liberal Imagination Lionel Trilling, 2012-07-18 The Liberal Imagination is one of the most admired and influential works of criticism of the last century a work that is not only a masterpiece of literary criticism but an important statement about politics and society Published in 1950 one of the chillier moments of the Cold War Trilling's essays examine the promise and limits of liberalism challenging the complacency of a naive liberal belief in rationality progress and the panaceas of economics and other social sciences and asserting in their stead the irreducible complexity of human motivation and the tragic inevitability of tragedy Only the imagination Trilling argues can give us access and insight into these realms and only the imagination can ground a reflective and considered rather than programmatic and dogmatic liberalism Writing with acute intelligence about classics like Huckleberry Finn and the novels of Henry James and F Scott Fitzgerald but also on such varied matters as the Kinsey Report and money in the American imagination Trilling presents a model of the critic as both part of and apart from his society a defender of the reflective life that in our ever more rationalized world seems ever more necessary and ever more remote *The Liberal Imagination* Lionel Trilling, 1976 [The Liberal Imagination, Essays on Literature and Society, by Lionel Trilling](#) Lionel Trilling, 1951 [The Critic in the Modern World](#) James Ley, 2014-05-08 The Critic in the Modern World explores the work of six influential literary critics Samuel Johnson William Hazlitt Matthew Arnold T S Eliot Lionel Trilling and James Wood each of whom occupies a distinct historical moment It considers how these representative critics have constructed their public personae the kinds of arguments they have used and their core principles and philosophies Spanning three hundred years of cultural history The Critic in the Modern World considers the various ways in which literary critics have positioned themselves in relation to the modern tradition of descriptive criticism In providing a lucid account of each critic's central principles and philosophies it considers the role of the literary critic as a public figure interpreting him as someone who is compelled to address the wider issues of individualism and the social implications of the democratising secularising liberalising forces of modernity *Natural Law and Contemporary Public Policy* David Forte, 1998-08-01 Rooted in Western classical and medieval philosophies the natural law movement of the last few decades seeks to rediscover fundamental moral truths In this book prominent thinkers demonstrate how natural law can be used to resolve a wide range of complex social political and constitutional issues by addressing controversial subjects that include the family taxation war racial discrimination medical technology and sexuality This volume will be of value to those working in philosophy political science and legal theory as well as to policy analysts legislators and judges **Complex consensus** Tity de Vries, 1996 [Sovereignty and the Limits of the Liberal Imagination](#), 2009 [The Liberal Imagination, Etc](#) Lionel TRILLING, 1961 [Cultural Conservatism, Political Liberalism](#) James Seaton, 1996 Examines whether cultural studies has been too dismissive of the tradition of literary cultural criticism that preceded it **The Post-Liberal Imagination** Bruce Baum, 2016-01-26 In The Post Liberal Imagination Bruce Baum approaches American liberalism in a critical spirit by
