The Light Of Egypt Vol I:

The Light of Egypt: The Science of the Soul and the Stars (Complete Two Volumes) Thomas H. Burgoyne, Belle M. Wagner, 2020-09-28

At the very first step the student takes into the hidden pathway of Nature's mysteries he is met face to face with this startling fact that all his preconceptions all his education all his accumulation of materialistic wisdom are unable to account for the most simple phenomena that transpire in the action and inter action of the life forces of the planet on which he lives As a chemist he may pursue the atoms of force until they become lost within the realms of the imponderable the great unknown or as it has been facetiously christened amid the groans of scientific travail the aching void But he can get no farther As a physicist he may decompose light and sound into their component parts and with scientific accuracy dissect them before your very eyes as a surgeon would his anatomical subject But no sooner is this point reached than the shy molecules and timid vibrations become alarmed as it were at man's daring presumption and fly into the realm of the infinite unknown There in the aching void to sport in delight safe from man's intrusion This realm of the unknown imponderables is the universal ether an infinite ocean of something which science created in her frantic endeavors to account for the material phenomena of light and heat and for a time she was infinitely pleased with her own peculiar offspring But it has become a restless phantom a grim unlovely spectre which haunts the laboratories of her parent night and day until at last science has become frightened at her own child and tries now in vain to slay the ghost of her own creation She dares not enter the aching void she has called into existence and there pursue and recapture the truant atoms and timid vibrations of this sublunar sphere Therefore at the very outset of his pilgrimage through these vast and as yet scientifically unknown regions the student had better unload so to say all the heavy and useless baggage of educated opinion and scientific dogmas that he may have on board If he does not he will find himself top heavy and will either capsize or run off the track and be buried amid the debris of conflicting opinions The only equipment that will be found useful and will repay the cost of transportation is an unbiased mind logical reasoning genuine common sense and a calm reflective brain Anything else for the voyage upon which we are now about to embark is simply so much useless costly lumber Hence so far as modern science and theology are concerned the less the student has the better it is for him unless he can use his scientific acquirements merely as aids in climbing the spiritual steps of Occultism If he can do this then he will find science a most valuable auxiliary aid But this achievement is an exceedingly rare gift and one that is seldom found It is also a most delusive snare because nine out of every ten seriously cheat themselves into the belief that they possess this ability whereas in reality they are woefully deficient Hence it is always a safe course to mistrust the absolute impartiality of our opinions and reasoning Before starting out on such a mighty and important undertaking we must draw the reader's attention to the chief obstacle of the voyage and the one which he will have the greatest difficulty in surmounting This hidden rock upon which so many otherwise profound students of the Occult have become shipwrecked is the non realization of the duality of truth viz the truth of appearances and

the truth of realities The former is relative only But the latter is absolute We do not mean merely taking for granted that truth is dual and so assenting to the statement but we mean that the great majority of Occult students fail to realize this conception within themselves Know that every thing is real upon its plain of manifestation If we possess half of anything we know by the laws of common sense and logical reasoning that there is another half somewhere No subtle twist of metaphysical sophistry can cheat us into the belief that we possess the whole when we know and see that we have just exactly half and no more Further when we look at any known thing we know that to possess the attributes of a thing it must possess three dimensions viz length breadth and thickness This being so we also know that it has broadly speaking two sides an outside and an inside The outside is not the inside any more than the boiler is the steam which drives the engine This logical process of reasoning is the only chart that has so far been prepared for the Occult explorer It is vague and probably very unsatisfactory so far as details are concerned but when used in conjunction with his conscious intuition the only true compass man has by which to guide himself in his winding uneven path upon the shores of the Infinite he never need fear being lost or failing in his endeavors to know the truth In order to carry out the same line of reasoning a little further let us take a type of architecture say the Gothic and mentally examine some well known handsome specimen of this structural conception The worlds thought will say what a beautiful building how imposing and grand what a triumph of man s mechanical skill So it appears to the world and upon the plain of appearances so it really is Consequently it is a truth for the time being But when examined by the light of Occult science we find this truth is relative only that it is only true upon the external transitory plane of material phenomena We see that in addition to being the result of man s trained mechanical ability it is also the external form of his mental ideal It is in fact the phenomenal outcome of his creative attributes When we look at the solid building from the earth s plane we see only the outside of a thing having length breadth and thickness Now since we know that there must be an inside we must enter the interior plane before we can see it and therein we shall find that it exists within the subjective world of its architect The solid stone edifice will in time crumble to decay fall and finally not one material atom will remain to indicate the place whereon it stood Hence it is not permanently real it is only a passing appearance assumed by matter under the moulding forces of man s mechanical ability As soon as the forces which gave it form become polarized by the restless oceans of planetary magnetism it will dissolve and finally vanish like the baseless fabric of a dream But though the external structure of stone and mortar is lost within the soil of the earth the idea which created it is eternal because it was a spiritual reality Therefore we see that the absolute truth the eternal reality appears to be the non reality upon the plane of matter while the material structure appears to be the only thing which is real It is these delusive appearances that have created the almost hopeless confusion regarding the exact meaning of the terms Spirit and Matter Science refers all she cannot grapple with to some of the undiscovered forces of Matter while theology refers all that she cannot explain to the unknowable workings of the Spirit Both are right and both are wrong And as we shall have to

explore the territory belonging to both of these terms during the progress of our journey we will in this place briefly add that spirit and matter as we know them are but the dual expression of the one Deific principle due to differences of polarity In other words a unity under two modes of action This duality can only be comprehended in its true relationship when viewed from both planes and realized by the science of correspondences which science is but a material system of symbolism from which we can justly regulate our conceptions of all things Plato once said Ideas rule the world So far Plato was right for before the divine idea was evolved from within the divine sensorium of the Infinite One the universe was not Hence the result of the divine idea was the evolution of a pure symbolic form Just as symbols are the product of ideas so in their turn ideas are the symbols of thought and thought itself is but the symbolic response of the Ego to the pulsating throb of the Deific will the divine radiant soul of the Infinite One Back of this we cannot penetrate even in our most exalted conceptions Hence all serious study and meditation as to the nature and existence of God is unprofitable and cannot bring the student any substantial return either in this world or the next seeing that the Infinite can never be comprehended by the finite Therefore we must rest satisfied with the certain knowledge that we can by one grand chain of sequences trace the transmission of thoughts ideas and symbolic forms to their source Thus the angelic world is but a prototype or symbolic expression of the divine sphere of the Infinite The celestial world is a reflection of the angelic world The spiritual world is a prototype and symbolic outcome of the celestial heavens The astral world is the reflection of the spiritual sphere And lastly the material our world is but the concrete shadow of the astral kingdoms Hence the reader can perceive that we in our present state are a long way down in the scale of creative life But if we are we know by the laws of our being that we can and shall win our way back through this valley of the shadow this plane of inverted images and delusive appearances into the bright realms of our former state those spheres of pure angelic life where alone exist the ever living reals of all the infinitude of apparent realities

The Light of Egypt: Volume One, the Science of the Soul and the Stars Thomas H. Burgoyne,1999-10 **The Light of Egypt** Thomas Burgoyne,2021-10-18 The Light of Egypt The Science of the Soul and the Stars is a late 19th century work of occultism by Thomas H Burgoyne It explores both the soul and nature of man as well as his relation to the stars and planets through Burgoyne s study of astrology Volume I of The Light of Egypt included here is divided into two parts The first The Science of the Soul explores the realms of spirit matter and the originals of physical life It also explains the Brotherhood of Light s views of reincarnation karma and mediumship Unlike the common idea of reincarnation as a literal rebirth of a soul into different bodies here on Earth Burgoyne argues that this would be a stalling of man s progress Instead we are reborn into a higher and more perfect form of life In part two Burgoyne goes into more detail regarding the science of astronomy This science he explains consists of two parts One is astronomy which deals with the suns moons planets and stars and strictly confines its researches to a knowledge of their size distance and motion The other he calls correspondences which explore the spiritual and physical influences of the same bodies first upon each other then upon the earth and lastly upon the

organism of man Like other occultist writers and thinkers Burgoyne views man as a microcosm of the greater universe In the zodiac we find each sign to be associated with a section of the human body Each also has its own unique characteristics which he describes from the symbolic Kabbalistic intellectual and physical views Not only date but birth time and birth location determine man s physical and mental traits as well as their fortunes Burgoyne would not have been impressed with modern horoscopes that lump all people with the same zodiac sign together The Light of Egypt is a work to be studied over time by those searching for wisdom and truth It was described by Elbert Benjamine the founder of the Church of Light successor to the Hermetic Brotherhood of Luxor as the greatest spiritual work of the 19th century **The Light of Egypt**

(Volumes I and II) Thomas H Burgoyne,2020-12-30 First published in 1889 The Light of Egypt was written by the Scottish born astrologer and occultist Thomas Henry Burgoyne One of the founding members of the Hermetic Brotherhood of Luxor Burgoyne claimed to be a psychic and that he was visited as a child by the Brotherhood of Light a group of advanced beings who attempt to help humankind Burgoyne moved to the United States in 1880 and came into contact with others who said that they too had been in contact with the Brotherhood of Light Encouraged by these new associates Burgoyne wrote The Light of Egypt in order to bring the teachings of the Brotherhood to the rest of humanity As described by Burgoyne the Brotherhood had initially been established to oppose the dominant religion in Egypt in ancient times and have continued as an esoteric occult order in the modern world In Burgoyne s work he sought to provide lessons for the reader to practice in order to obtain spiritual wisdom and the relationship between the attainment of that wisdom and astrology The Light of Egypt is essential reading for any student of the occult and esoteric mysticism Volumes I and II are collected together here in an edition which is printed on premium acid free paper **The Light Of Egypt** Thomas Burgoyne,2013-12-10 This is the author s posthumous work left in manuscripts to a few of his private pupils in Occultism and is a valuable addition and a library in occult subjects Spiritual astrology and the Zodiacal Signs are especially elaborated Alchemy Talismans Magic the Magic Wand Symbolism Correspondence Penetralia etc etc are a few of the subjects created fn a scholarly and masterly manner showing the author to be familiar with his subjects The Light of Egypt: Volume Two, the Science of the Soul and the Stars ,2000 The Light of Egypt; Or, the Science of the Soul and the Stars [Two Volumes in One] Thomas

Burgoyne,2021-10 The Light of Egypt The Science of the Soul and Stars by Thomas H Burgoyne is a treatise on astrology occultism and the true nature of the universe Comprising two volumes this work explores the connection between the macrocosm of God and the microcosm of man Author Thomas H Burgoyne was an occultist and medium who believed he was in touch with the unembodied Brotherhood of Light This group Burgoyne and other followers believed guided the fate of humanity from a different plane of existence This book began as a set of lessons to share the Brotherhood s teachings with the public Burgoyne wrote Volume I of this work in the late 1880s and published it in 1889 Shortly after its publication he passed away at the age of 39 But he was not done with The Light of Egypt yet After his passing fellow occultists Henry and

Belle Wagner continued his work. Belle Wagner succeeded Burgoyne as the scribe of the Hermetic Brotherhood of Light. Burgoyne also chose Mrs Wagner to be the vessel through which he would reveal Volume II of his great work. This is how the second volume of *The Light of Egypt* was written after Burgoyne's passing and published in 1900. Volume I explores the very foundations of existence from the spirit to matter to creation. It then moves into the transitions of the soul through the concepts of reincarnation, karma and mediumship. Burgoyne explained that rather than reincarnating into another life here on Earth, true reincarnation brought the soul to a different, more elevated plane of existence. It was from this plane that he dictated the second volume of his work to Mrs Wagner. Key to Burgoyne's understanding of humanity and the universe is the study of astrology. By understanding the celestial bodies, the sun, moon and eight planets (omitting Earth), we could understand ourselves and the world around us in a new, truer way. Detailed descriptions of each of these bodies explain the way they interact both with each other and with the human brain. Volume I closes with a chapter regarding the practical applications of astrology and how the date, time and location of one's birth will determine mental and physical traits. Volume II builds on the foundation laid in Volume I and explains additional concepts of astrology, as well as ritual magic and the occult. This volume explores astro-theology using the science of the stars to understand the creation and redemption stories of world religions, including Christianity. It also discusses astro-mythology, drawing parallels between the symbolism of the gods and goddesses and the stars and constellations. A common theme through Volume II is understanding the true names and words used to symbolize the concepts described. The etymology of words like alchemy, talisman and ritual are explored to help the reader understand their true original meaning rather than the meaning we have ascribed to them in the centuries since their creation. Volume II also contains a translation of the Tablets of Aeth, said to have been transcribed from the Astral Records. These translations are in three parts: one to explore the symbolism of each of the twelve mansions or zodiac houses; one to discuss the symbolism of the ten planetary rulers (the sun, moon and eight planets); and one for the Great Kabbalistic Powers. These 33 tablets represent the very core of occult philosophy. The work closes with the Penetralia or The Secret of the Soul to bring everything together in a final call to enter the Sacred Sanctuary and learn the imperishable truth of our being. *The Light of Egypt* is a work to be carefully studied by students of astrology and the occult to give them a deeper understanding of the universe and their place within it.
