terminate the Arrow and then with the help of the Americans deploy the machine for what it was designed for Its mission catch the Russians with evidence of its strike force While the public mourns the death of the supersonic fighter the Arrow blasts its way across the Pacific on a vital long range photo recon mission to save the Free World and avert World War III Behind the controls is a hand picked Royal Canadian Air Force pilot Target Siberia **Vanishing Point** Tom Wilber,2023-05-15 In Vanishing Point award winning journalist and author Tom Wilber pieces together the largely forgotten story of the bomber Getaway Gertie and an eclectic group of enthusiasts who have spent years searching for it At the height of World War II a B 24 Liberator bomber vanished with its crew while on a training mission over upstate New York The final hours and ultimate resting place of pilot Keith Ponder and seven other US aviators aboard the plane remain mysteries to this day The tale is at once a compelling instance of loss on the World War II American home front and a more extensive largely unreported history Ponder a 21 year old from rural Mississippi and his crew were tragically unexceptional casualties in the monumental effort to recruit and train an air force en masse to counter the global conquest of Nazi Germany and Imperial Japan More than fifteen thousand American airmen and in some cases women burned crashed or fell to their deaths in stateside training accidents during the war their lives and stories shuffled away in piles of Air Force bureaucracy The forgotten story of Getaway Gertie was originally inspired by summer evenings around the campfire on the shores of Lake Ontario where parts of the plane have washed up Building on those campfire tales Wilber deftly connects myth with fact and memory with historicity The result is a vivid portrait of the forgotten soldier of the home front and a new take on the meaning of wartime sacrifice as the last survivors of the Greatest Generation pass away **Fall of an Arrow** Murray Peden,1987-01-01 On February 20 1959 Prime Minister John Diefenbaker announced to the House of Commons the cancellation of the CF 105 Arrow Its development costs to that time were 340 million The Arrow was to be the world's unsurpassed interceptor aircraft Yet within two months of the Prime Minister's announcement six completed aircraft were dismantled and all papers and documents associated with the project were destroyed Here is the history and development of the Arrow the plane that would make Canada the leader in supersonic flight technology The Arrow was designed to fly at twice the speed of sound and carry the most advanced missile weapons system Here are the stories of the men and women who were in the vanguard of the new technology who had come from England Poland and the United States to make aviation history What led to the fall of the Arrow What were those pressures brought to bear on a young Conservative government that culminated in a senseless act of vandalism and ended any opportunity for Canada to supply its own military and air forces of the world with planes of the calibre of the Arrow Book jacket **Canadian Aviation and the Avro Arrow** Fred Smye,2014-08-06 With its first flight in 1958 the Avro Aircraft CF 105 Arrow appeared to be Canada's greatest aeronautical achievement As the world's fastest and most advanced aircraft at that time the Arrow flying at twice the speed of sound over the Canadian north was to attack Soviet bombers with air to air nuclear missiles Also during the mid 1950's the Royal

Canadian Air Force with its 27 fighter jet squadrons assigned to NATO and NORAD was respected as one of the great air forces in the western alliance But Canada quickly tumbled from this threshold of aeronautical leadership with the sudden cancellation and destruction of the Arrow Fred Smye was in on the genesis of Canada's post WW II air power and describes the decade of innovation and growth in the nation's extraordinary aviation industry that once enabled a unique and independent air defence strategy Smye also reveals the misinformation misjudgments flawed economics and political machinations that forced him to give the orders to cut up the existing Arrows when the Diefenbaker government cancelled the program on February 20 1959 That Black Friday devastated Canada's aviation industry throwing tens of thousands of workers out of highly skilled jobs and forcing an exodus of scientists and engineers to the U S and Britain Canada subsequently surrendered its independent air defence strategy and came to rely on the U S for aviation industry sub contracts and a meager supply of obsolete military aircraft for a diminished air force **The Arrow** T. F. J. Leversedge, 1999 Boston Mills is delighted to publish in one volume a copy of the original Avro Arrow Pilot Operating Instructions manual and the previously unpublished RCAF Testing Basing Plans The special edition includes CD ROM with 22 minute Avro Story video CF 100 and other video clips slide show with over 350 Canadian aviation and Arrow era photos 100 heritage black and white photos photos dating to 1902 Arrow screensavers plus Windows 98 media player
