## **Strange Death Of Tory England:**

**The Strange Death of Tory England** Geoffrey Wheatcroft, 2005 Has the most successful species in British political history finally become extinct The Conservative party dominated British politics for 120 years from Disraeli's victory in 1874 culminating in an unprecedented eighteen year spell in government after 1979 And yet at the very end of the century the Tories imploded so disastrously as to suggest the party might be doomed to follow the Liberals into oblivion Geoffrey Wheatcroft has observed this extraordinary drama at close hand interviewing all the key players on and more often off the record from spirited exchanges with Margaret Thatcher to unprintable asides from Alan Clark In this provocative and often acerbically funny book he first examines how the Tories came to enjoy their unlikely triumph what was meant to be the century of the common man with the unstoppable ascent of Labour turned out to be the era of the Conservative as the Tories reinvented themselves over and over again not least entirely changing the party's class character **The Strange Death of Tory England** demonstrates brilliantly how two profound truths explain the Conservatives decline that the Right had won politically but the Left had won culture

**The Party of Patriotism** Nigel Keohane, 2010 The First World War was a period of turbulent and unprecedented political upheaval that witnessed contrasting fortunes for Britain's major political parties This book demonstrates how the Conservative Party was able to respond effectively in these years by refining a wartime patriotism that ensured its unity as a party helped define its electoral fortunes and shaped ideological cohesion Concepts of patriotism determined not only attitudes to the prosecution of the war to voluntary and forced military enlistment but also to class politics Irish Unionism democratic reform and the relationship between citizen and state Fundamental conclusions about modern Conservatism emerge its organic ideological genesis into a properly defending party its peculiar willingness and capacity to adapt not only to the immense challenges of total war but also to the new political climate awakened by the conflict Conservatism was therefore at once flexible and ideological Filling the historiographical gap created by an overemphasis upon its rival Liberal and Labour parties and using previously unused party sources this study sheds new light on many aspects of the war of Conservative Party history and its regeneration following three disastrous general election defeats in succession and of British politics in the twentieth century

**The Strange Death of Tory England** E. H. H. Green, 1991 **The Party's Over** Phil Burton-Cartledge, 2021-09-14 Today it is not a question of if but when What we are watching is the collapse of the most successful political party in Europe Despite winning the December 2019 General Election the parliamentary conservative and unionist party is facing its own demise It no longer speaks for or to the British people Its leadership has sacrificed the long standing commitment to the Union to Get Brexit Done And beyond this it is an intellectual vacuum propped up by half baked doctrine and magical thinking Burton Cartledge's account starts with the Thatcher era and shows that swiftly the party struggled to find a popular vision for the United Kingdom He charts the flaws and failings of each successive leader all the way to Sunak He also examines the state of the membership and shows that they

have become increasingly old Their values have not been adopted by the younger voters who are unable to share the benefits Furthermore the coalition between the countryside and the City interests is under pressure and the latter is split by Brexit

*Falling Down* Phil Burton-Cartledge,2021-09-14 The Fall of the Tory Party Despite winning the December 2019 General Election the Conservative parliamentary party is a moribund organisation It no longer speaks for or to the British people Its leadership has sacrificed the long standing commitment to the Union to Get Brexit Done And beyond this it is an intellectual vacuum propped up by half baked doctrine and magical thinking Falling Down offers an explanation for how the Tory party came to position itself on the edge of the precipice and offers a series of answers to a question seldom addressed as the party is poised to press the self destruct button what kind of role and future can it have This tipping point has been a long time coming and Burton Cartledge offers critical analysis to this narrative Since the era of Thatcherism the Tories have struggled to find a popular vision for the United Kingdom At the same time their members have become increasingly old Their values have not been adopted by the younger voters The coalition between the countryside and the City interests is under pressure and the latter is split by Brexit The Tories are locked into a declinist spiral and with their voters not replacing themselves the party is more dependent on a split opposition putting into question their continued viability as the favoured vehicle of British capital
