[Supplement, By] Richard Bellman and Rebecca Karush Richard Bellman, Rebecca Karush, 1964 *Dynamic Programming and Its Application to Variational Problems in Mathematical Economics* Richard Bellman, 1956 The purpose of this paper is to discuss some variational problems arising from mathematical economics and some of the methods that can be used to treat these questions both analytically and computationally The discussion is limited to important and interesting classes of processes allocation and smoothing processes and to a discussion of the application of the theory of dynamic programming to those processes Author Dynamic Programming and Mathematical Economics Richard Bellman, 1963
