Evaluation of UNDP Contribution at the Regional

Level to Development and Corporate Results ,2010 In an increasing inter connected and inter dependent world Regional

cooperation has immense potential Countries are collaborating to address challenges that cannot be addressed individually

and on regional public goods New forms of cooperation are taking place with the emergence of new regional and subregional

groupings UNDP since its inception has supported regional cooperation through its regional programmes and engagement

with regional bodies UNDP itself is structured along regional lines with five regional bureaux and has also established a

presence in all five regions through regional service centres that support country and regional programmes The evaluation

concluded that UNDP regional programmes have made significant and long standing development contributions They

promoted cooperation among countries in building regional and national institutions as well as addressing cross border and

common challenges The regional service centres have provided useful and much appreciated technical support to country

offices However in all regions the contribution to results has been affected by fragmentation of regional programmes

insufficient linkages with national programmes and time frames that have not taken into account the need for long term

capacity development UNDP has yet to develop an explicit holistic and strategic business model that addresses critical

capacity in country offices the provision of supplementary technical support to country offices management of the regional

programme support to UN coordination at the regional level and the grounding of corporate positioning in regional

knowledge As a result the core recommendation of the evaluation is that the organization should develop a strategic

corporate business model that covers headquarters global regional and country levels Publisher s website
