## Soviet Colossus:

**The Soviet Colossus** Michael G. Kort, 2014-12-18 The twentieth century was not kind to Russia. Despite its great potential and remarkable achievements the country also bore the weight of two world wars, a revolution and civil war, totalitarian tyranny, famine and ecological destruction, economic ruin and imperial decline. Will Russia ever be prosperous, peaceful and free? Seeking clues in the past, Michael Kort revisits earlier turning points in Russia's history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism, from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin. Which strands of Russia's past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse? This new edition of *The Soviet Colossus* brings the story up through the first decade of the twenty-first century. Distinctively readable, judicious and focused on critical events and questions, it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor. It is the ideal text for a one-semester history course or background for a political science course.

*The Soviet Colossus* Michael G. Kort, 2019-04-17 The Soviet Colossus revisits the turning points in Russia's modern history from the fall of the tsarist regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism, the reforms and counter reforms of Khrushchev and Brezhnev to the reform program of Mikhail Gorbachev and the resultant collapse of the Soviet Union and from the effort to build a democratic and free market Russia under Boris Yeltsin to the political authoritarianism and the establishment of a state capitalist economy under Vladimir Putin. This eighth edition has been revised and updated to cover the latest developments from the Putin administration. These revisions include added emphasis on the increasing authoritarian nature of Russia's political system, the serious challenges posed by the country's unsolved economic and social problems and the growing tensions between Russia on the one hand and the United States and the European Union on the other as a result of Moscow's aggression against Ukraine. Kort combines this updated account with a broad exploration of Russia's political history, examining how the Soviet past has been woven into the fabric of the modern Russian state, a state which plays such a major assertive role in global affairs but which simultaneously remains an allusive, secretive entity. With Russia's increasing influence on the global stage and the controversies that often accompany this, *The Soviet Colossus* is an invaluable resource for students of history, politics and international relations.
