This collection explores the significance of New York City in children's literature stressing literary political and societal influences on writing for young people from the twentieth century to the present day Contextualized in light of contemporary critical and cultural theory the chapters examine the varying ways in which children's literature has engaged with New York City as a city space both in terms of urban realism and as an idea such as the fantasy of the city as a place of opportunity or other associations The collection visits not only dominant themes motifs and tropes but also the different narrative methods employed to tell readers about the history function physical structure and conceptualization of New York City acknowledging the shared or symbiotic relationship between literature and the city just as literature can give imaginative reality to the city the city has the potential to shape the literary text This book critically engages with most of the major forms and genres for children young adults that dialogue with New York City and considers such authors as Margaret Wise Brown Felice Holman E L Konigsburg Maurice Sendak J D Salinger John Donovan Shaun Tan Elizabeth Enright and Patti Smith Fantasies of Neglect Pamela Robertson Wojcik, 2016-09-19 In our current era of helicopter parenting and stranger danger an unaccompanied child wandering through the city might commonly be viewed as a victim of abuse and neglect However from the early twentieth century to the present day countless books and films have portrayed the solitary exploration of urban spaces as a source of empowerment and delight for children Fantasies of Neglect explains how this trope of the self sufficient mobile urban child originated and considers why it persists even as it goes against the grain of social reality Drawing from a wide range of films children's books adult novels and sociological texts Pamela Robertson Wojcik investigates how cities have simultaneously been demonized as dangerous spaces unfit for children and romanticized as wondrous playgrounds that foster a kid's independence and imagination Charting the development of free range urban child characters from Little Orphan Annie to Harriet the Spy to Hugo Cabret and from Shirley Temple to the Dead End Kids she considers the ongoing dialogue between these fictional representations and shifting discourses on the freedom and neglect of children While tracking the general concerns Americans have expressed regarding the abstract figure of the child the book also examines the varied attitudes toward specific types of urban children girls and boys blacks and whites rich kids and poor ones loners and neighborhood gangs Through this diverse selection of sources Fantasies of Neglect presents a nuanced chronicle of how notions of American urbanism and American childhood have grown up together **School Library Journal**, 2002
